# Sen. Kennedy Injured In Plane Crash

**SENATOR HURT.** Sen. Edward M. Kennedy is carried on a stretcher after being injured when his plane crashed early today while approaching an airport in Westfield, Mass. Sen. Kennedy's aide and the pilot were killed and Sen. and Mrs. Birch Bayh of Indiana were injured. (UPI Telephoto)

**NORTHAMPTON, Mass. (AP)** — Sen. Edward M. Kennedy, D-Mass., younger brother of the late President John F. Kennedy, was hospitalized with a broken back today after a private plane crashed Friday night in an apple orchard taking two lives.

Dr. Thomas F. Corriden, who supervised immediate treatment of the senator at Cooley-Dickinson Hospital, said the 32-year-old Kennedy suffered several fractured vertebrae. But he has the use of his arms and legs, and is listed in "fair condition."

Less seriously injured in the crash were Sen. Birch Bayh, D-Ind., and his wife. Both were reported in good condition at the hospital.

Killed in the crash was the pilot of the twin engine plane, Edwin T. Zimny, 48, of Lawrence. Edward Moss, 41, Ken-

dy's administrative aide, died in the hospital of injuries suffered in the accident.

The plane was approaching Barnes Airport, in Westfield, shortly after 11 o'clock. The control tower at Barnes said it was in contact with the pilot and that he reported no difficulty. It had rained heavily earlier and was drizzly and foggy at the time.

It was believed that as Zimny approached the airport his plane may have hit the tops of trees in the fog. There was no fire.

The first witness, Robert Schauer said he heard the crash and then saw the wrecked plane 200 yards up a hillside in an apple orchard. He dashed up the hill to help.

Today's hospital bulletin said: Sen. Kennedy is in fair condition. He has improved considerably since his admission and is resting comfortably.

"X-rays showed fractures of the fifth and sixth ribs on the left side, fractures of the second, third and fourth lumbar vertebrae (the lower back) and fractures of the second, third and fourth transverse processes, which give the spine support."

"There are no head injuries and no neurological complications. He has complete use of

his legs and arms. He has cuts on both legs and the right hand."

Kennedy was to have been endorsed by acclamation at the Massachusetts State Democratic Convention for the U.S. Senate seat once held by his brother.

The accident occurred less than seven months after President Kennedy was killed by an assassin's bullets in Dallas, Tex.

The word of the crash shocked the cheerful convention which adjourned, talking of postponing the rest of the sessions for at least one week.

The senators had left Washington after voting "yes" for the civil rights bill enacted by the Senate. Bayh had been scheduled to deliver the convention's keynote address. It was read over a telephone hookup but Bayh came anyway to visit with the Kennedys at their summer home in Hyannis Port on Cape Cod.

Rose Kennedy, the senator's mother, was at the Kennedy compound in Hyannis Port with her ailing husband, former Ambassador Joseph P. Kennedy, when the accident occurred.

Atty. Gen. Robert F. Kennedy and a sister, Mrs. Stephen Smith, left the compound for the hospital as soon as they received word of the mishap. After visiting with their brother they went to bed at the hospital.

The Air Force said a presidential plane was shot down.

### 'Unofficial' Campaign

## President Eyes Goldwater Area

**SAN FRANCISCO (AP)** — President Johnson today directed his unofficial California vote-getting campaign at the area that gave Sen. Barry Goldwater his possibly crucial victory in California's Republican primary.

Johnson scheduled a mid-morning jet plane departure from Democratic-controlled San Francisco for the Los Angeles area.

The President was aiming his attention for the day at Los Angeles and Orange counties, the center of Goldwater strength in California.

Goldwater, who won the state's June 2 Republican presidential primary by 58,000 votes, gained a 150,000 - vote margin over rival Nelson A. Rockefeller, the governor of New York, in Los Angeles county. In Orange County, Goldwater's margin was about 50,000 votes.

These two counties are expected to hold the key to the outcome of the November presidential election in California. This same area gave the 1960 Republican ticket a narrow statewide victory over the Democratic slate of John F. Kennedy and Lyndon Johnson.

Officially, Johnson is mixing politics and official appearances during his three-day California tour that began Friday. Actually, he has yet to bypass politics at any stop.

Friday night in San Francisco, the President was awfully political as he told 2,500 diners at a \$100-a-plate Democratic dinner that he had visited the state on a job-hunting expedition 40 years ago "and I'm back on the same mission tonight."

The President said, "You were good to me 40 years ago and gave me that job and I hope you'll love me in November as—"

Laughter and cheers made the rest of the sentence inaudible.

Johnson, greeted in the bay area by enthusiastic noon-hour crowds estimated by police at 400,000, contended the Democrats had redeemed three major pledges made to California voters in the 1960 presidential campaign: to increase U.S. military strength, to seek peace and justice in the world, and to "meet the hopes and widen the horizons of opportunity for every American."

### Fire Destroys Barn During Early Storm

#### Lightning Strikes 2 District Homes But Damage Seen Minor

The barn of an elderly Fredericktown area farmer was leveled by fire early this morning during a heavy thunderstorm which swept the district.

Lightning hit two homes about the same time in another in the series of early - morning storms that have lashed the Ohio Valley almost daily since Monday. Rain was heavy and more thundershowers were due this afternoon and tonight.

The barn owned by James March, about 70, was about ready to collapse from the blaze when Negley volunteer firemen arrived.

Firemen, who timed the fire at 2:45 a. m., said a neighbor out checking his property during the electrical storm, saw the flames and went to March's home and awakened him.

The farm is located on Township Line Rd. about a mile north of Fredericktown.

Some chickens and rabbits were destroyed in the blaze along with some other contents, but March, shaken by the incident, was unable to give a full accounting of what was in the barn, firemen said.

There was insurance on the barn, but not the contents, March said.

As the first storm swept eastward, the Glenmora volunteer fire department answered two simultaneous calls of fire.

### Wallace Hits Senate OK Of 'Rights'

#### Dr. King Hails It As Lasting Tribute To Late President

**ATLANTA, Ga. (AP)** — Gov. George C. Wallace of Alabama called Senate passage of the civil rights bill "a sad day for individual liberty and freedom."

Dr. Martin Luther King, Negro integration leader, hailed it as "a lasting tribute to the late John F. Kennedy."

The bill's passage Friday brought gloom to Southern opponents and joy to integration leaders and moderates.

"It will bring practical relief to the Negro in the South and give the Negro in the North a psychological boost that he sorely needs," said King, in St. Augustine, Fla., for an integration crusade. King said Negroes would spend the summer testing compliance with the law and that St. Augustine would be a good place to start.

Wallace, a determined opponent of the bill and avowed candidate for president, predicted that Americans would remove from office those responsible for its passage. "I predict that the American people will rise up in indignation when they realize the awful consequences of this legislation," he said.

Gov. Farris Bryant of Florida said he had hoped the Senate would be more temperate. "It seems to me they have done a great injury to national unity," he said.

Mayor Ivan Allen Jr. of Atlanta hailed passage as "another major step in the elimination of racial discrimination," but Sen. Herman Talmadge, D-Ga., who voted against the bill, asked, "How can it be called civil rights and grant special privileges to special citizens and take away constitutional rights of all citizens?"

Harry Carbaugh of Chattanooga, Tenn., state Republican chairman, praised GOP presidential candidate Sen. Barry Goldwater of Arizona for voting against the bill and said he was sorry "that there were not more like him."

The Rev. Sam Dodson, chairman of the Governor's Commission on Human Relations in Tennessee, said, "I think this will go down in history as one of the great days of our nation."

But Sen. Olin D. Johnston, D-S.C., called Friday "the blackest day in the United States Senate since 1875." That was when Reconstruction era civil rights laws were passed.

**CIVIL RIGHTS BILL BACKERS** stand on the steps of the Capitol following the Senate's historic passage of the measure Friday. In the front, left to right, are Senators Kenneth Keating (R-N.Y.), Hubert Humphrey (D-Minn.), Everett Dirksen (R-Ill.), and Thomas Kuchel (R-Calif.), and in the back are Senators Jacob Javits (D-N.Y.), Warren Magnuson (D-Wash.) and Philip Hart (D-Mich.)

### Goldwater Says Scranton Casts Lot With Liberals

**WASHINGTON (AP)** — Sen. Barry Goldwater thinks Pennsylvania Gov. William W. Scranton has cast his lot with Republican liberals—and questions whether the Republican National Convention would award Scranton the vice-presidential spot on a ticket topped by Goldwater.

Goldwater's view on the governor's position was learned today as Scranton pressed what he calls a moderate crusade to capture the presidential nomination for himself.

Despite a towering lead in delegate strength, Goldwater does not rule out the governor as a running mate, despite the harsh terms the Pennsylvania has chosen for his campaign theme. He has called Goldwater's conservative views a "weird parody" on traditional Republican beliefs.

Goldwater is said to point to John F. Kennedy's selection of Lyndon B. Johnson as his running mate in 1960 despite the harsh things Johnson had said

### House Predicts Swift Approval

**WASHINGTON (AP)** — After 83 days of debate, the longest in its history, the Senate passed the civil rights bill Friday night by an overwhelming 73-27 vote.

With that historic hurdle cleared the bill goes to the House on Monday where it is expected to receive prompt approval.

House leaders predicted that after a brief struggle the measure—to arm the federal government with the greatest power since Reconstruction to attack racial discrimination—will be on President Johnson's desk ready to be signed into law by July 4.

In San Francisco, Johnson applauded the action, declaring:

"Senate passage of the rights bill is a major step toward equal opportunities for all Americans. I congratulate senators of both parties who worked to make passage possible.

"I look forward to the day, which will not be long forthcoming, when the bill becomes law. That will be a milestone in America's progress toward full justice for all her citizens."

Civil rights leaders also hailed passage of the measure as "an act of good will and reconciliation" and "the greatest single triumph for human rights in our country since the Emancipation Proclamation."

From the South, however, came predictions of disaster from some Dixie governors. Alabama's George C. Wallace predicted the American people "will remove from office those responsible."

Since Feb. 10, when the House passed its version of the rights bill, the focus of attention has been on the Senate where the bill faced its deepest peril from the Southerners' razor-sharp parliamentary weapons of delay and filibuster.

Finally the filibuster was broken when the Senate voted June 10, for the first time, to invoke cloture on a civil rights debate. That set the stage for Friday's vote.

Spectators jammed the visitors gallery and overflowed into a line that trailed under the pillars and down the broad Senate steps.

All 100 senators were on hand, including Sen. Clair Engle, D-Calif., recuperating from two brain operations, who was rolled up the aisle in a wheel chair.

The roll call moved swiftly and at 7:50 p. m. it was over. The bill had passed. The gallery broke into applause.

Voting for it were 46 Democrats and 27 Republicans. Against it were 21 Democrats—including 20 Southerners—and six Republicans, including Sen. Barry Goldwater of Arizona, the front-running candidate for his party's presidential nomination.

After the roll call most of the senators left the floor. Many, however, stopped to congratulate the Republican leader, Everett M. Dirksen, and Sen. Hubert Humphrey.

### Hearings Set For 15 July 2 Defendants To Get Tax Case Notices

Municipal Court hearings are scheduled Thursday, July 2, for the latest group of 15 defendants accused of violating the city income tax ordinance.

Judge Samuel M. Chertoff set the date Friday afternoon as his staff began preparing a summons for each of the defendants, based upon affidavits signed Thursday afternoon by Tax Commissioner D. G. Wilkinson.

Each of the individuals is accused of two counts — failure to file a final return on 1963 income and failure to furnish an estimate of 1964 earnings.

Bailiff Wilbert P. Taylor said he will begin work Monday on serving the summonses on the defendants.

Twenty-five now face charges of violating the ordinance by failure to furnish the 1963 and 1964 reports. Ten charges were filed earlier, but not all the defendants could be located at the addresses given by the tax office. Those who were served were notified to appear next Wednesday.

Wilkinson said he will continue to file affidavits in batches of 15 weekly until a backlog of about 80 tax cases is cleared up.

### Plane From U.S. Downed, Cuba Claims

**MIAMI, Fla. (AP)** — The Cuban government claims to have shot down a plane from the United States after it bombed a sugar mill on Cuba's north coast.

"Pursued by an air force plane and attacked from the anti-aircraft batteries, the pirate plane was shot down on the north coast of Las Villas Province," the government said in an official statement broadcast by Havana radio Friday night and monitored in Miami.

The head of an exile group in Miami, Orlando Bosch, said, "I fear it was our plane." He refused to say what kind of plane it was, how many men were aboard or where it took off from.

The Cuban radio did not mention survivors. It said the attack took place at 11:45, but didn't specify a.m. or p.m. or even the day.

The statement said that the plane dropped three bombs on the Marcelo Salado mill near Caibarien, a town almost exactly in the middle of Cuba's long coast.

One of the bombs exploded but no one at the mill was killed, the government said.

It charged that the plane flew from the United States. "We hope the U.S. government won't have the cynicism to deny these facts," the statement said.

### East End Gas Station Target For Burglary

An undetermined amount of cash was stolen early this morning in a burglary at an East End service station.

Police said the burglar obtained the cash, apparently fleeing in a hurry, at the Petrosol Service Station, 1101 Pennsylvania Ave.

Officers said the thief pried the cash box, which is bolted to the counter to obtain the money after the station was closed at 12:30 a. m. The theft was discovered at 6 a. m.

The station is operated by Jay Roberts and Monroe Williams, police said.

### Awaits Judge's Oath

**BEAVER** — Atty. Ralph F. Scaleria of Beaver, formerly of Midland, will be administered the oath as judge of Beaver County Common Pleas Court in a public ceremony Saturday, June 27, at 10 a. m. at the Courthouse, Judge Morgan H. Sohn announced. Atty. Scaleria was named to the post by Gov. William Scranton.

### In Drive For Nomination Scranton Cites Goldwater Vote Campaign Weapon

**BOSTON (AP)** — Gov. William W. Scranton of Pennsylvania plans to use Sen. Barry Goldwater's vote against the civil rights bill as his main weapon in their battle for the Republican presidential nomination.

"I have used it as an issue and I will continue to do so," the governor told a news conference Friday night shortly after receiving the most tumultuous reception of his 9-day-old campaign. He came here to address the Massachusetts Republican Convention today.

He said Goldwater's vote Friday, as the bill cleared the Senate, "is the most unfortunate thing for our party. It sets the party back to the time before Abraham Lincoln."

"Someone else ought to be nominated, and I know just the person who is interested," Scranton said.

Scranton hit at Goldwater's vote several hours earlier in Louisville, Ky., where he also attacked what he called the senator's slanderous statements against the poverty-stricken.

Nearly a thousand persons were at Logan International Airport when his chartered DC6 touched down at 10:30 p. m. after a three-hour flight from Louisville. Another large throng cheered him at a downtown hotel, where he and wife obliged with their rousing version of the Pennsylvania polka.

He came here to win, or at least neutralize, delegates from

## Historic Rights Measure Passed By Senate, 73-27

(Continued from Page 1)

bert H. Humphrey, D-Minn., the bill's floor manager, for their bipartisan efforts in driving the bill through.

Democratic Leader Mike Mansfield remained on the floor to announce the legislative program for next week when the Senate plunges into a massive backlog of work. Then, although most senators were gone, he kept the Senate in session long enough to pass 50 minor bills.

The bill breaks new ground for federal civil rights law, at least in modern times, in three respects. It would ban racial discrimination in:

Motels and hotels, eating places, gasoline stations and entertainment centers, and some other places of public accommodation. All phases of employment, including hiring, firing, promotions and union membership. Federally assisted state and local programs. Federal funds would be cut off if the discrimination is not ended.

In addition the bill would greatly increase the power of the attorney general. He could sue to desegregate schools and public facilities such as parks and libraries and could assist individuals in a wide variety of cases brought to obtain the equal protection of the laws.

An underlying theme of the bill is a shift to federal court injunctions as a principal method of enforcement of civil rights. This involves the tacit assumption it is hard to get convictions under criminal statutes.

The measure would also broaden two previous acts on voting rights, establishing among other things that an applicant to register is presumed literate if he has a 6th-grade education; extend the Civil Rights Commission to 1968, and set up a community relations service to try to help in solving racial discrimination disputes.

As sent back to the House the bill contains more than 100 Sen-

ate changes but preserves the broad framework of the legislation passed by that branch 290 to 130.

The Senate version appears certain to become the law, perhaps within two weeks, because House leaders say they expect to accept the revisions. Speaker John W. McCormack, D-Mass., said he is confident the bill will be in the President's hands by July 4.

Leaders said they believe Rules Committee Chairman Howard W. Smith, D-Va., a bitter foe of the bill, could delay it only about eight days. Thus the final vote could come on June 30 or July 1.

Procedural safeguards are added for persons who might be involved in commission investigations. There must be 30 days advance notice of hearings, all witnesses shall have the right to be represented by counsel and any person defamed by testimony shall have the right to produce evidence in reply.

Federal Aid, Title 6 No American, on grounds of race, color or national origin, can be excluded from the benefits of any program receiving federal aid. Funds must be cut off in case of a violation.

Federal agencies must hold a hearing before any funds are shut off, and must notify Congress 30 days before action is taken.

The title exempts the mortgage insurance and guarantee programs of the Federal Housing Administration and the Veterans Administration.

Employment, Title 7 Discrimination by an employer, union or employment agency because of race, color, religion, national origin or sex, is prohibited in the hiring, firing, promotion and job referral of workers.

A five-member Equal Opportunity Commission shall be named by the president to receive, investigate and seek to settle complaints of job discrimination. Complaints may be filed by an individual or a commission member.

## 5 U.S. Ships Carrying Equipment To Thailand

BANGKOK, Thailand (AP) — Five U.S. navy ships are on their way to Thailand carrying military hardware for expansion of U.S. equipment stockpiles in this strategic Southeast Asian country, authoritative sources said today.

The ships, described as three LST's and two Navy freighters, are expected in Bangkok next week, the sources said. They said one may arrive as early as Monday or Tuesday.

According to the informants, the vessels are carrying trucks, M113 armored personnel carriers, some tanks, signal equipment, and ammunition. Vehicles are said to form the bulk of the load.

The equipment is obviously being brought here to increase U.S. military potential in this country bordering on crisis-stricken Laos and will be added to stockpiles left here by American troops who came to Thailand in 1962 as a deterrent in an earlier Laos crisis.

The informants explained the buildup would enable American forces to react more quickly and with more punch against Communist aggression in Southeast Asia. Thailand is a firm ally of the United States.

While disclosing the equipment buildup, the sources denied rumors that American troops would also be shipped to Thailand—as they were in 1962. However, reports circulating here said some troops of the 25th Division, stationed in Ha-

wai, may be flown to Thailand to help in the stockpiling of the equipment. About 100 men were said to be involved.

The informants said the decision to build up the equipment pool here was taken after Communist Pathet Lao forces, reportedly supported by Communist North Vietnamese troops, launched a major offensive against the Laotian neutralist forces last month, pushing them out of the strategic Plain des Jarres.

Disclosure of the U.S. move to add to its military muscle in Southeast Asia followed repeated American warnings to Communist North Viet Nam to leave its Southeast Asian neighbors alone.

The Vietnamese are said to have a number of battalions in Laos and have been charged with major support to the Viet Cong, the Communist rebels fighting the government of South Viet Nam.

## Crash

(Continued from Page 1)

dental plane carrying three Washington doctors, accompanied by an assistant attorney general, were turned back from Westover Air Force Base at nearby Chicopee by ground fog.

A spokesman said the plane was rerouted to Stewart, N.Y., AFB. He said the doctors would be taken by auto to Northampton.

The private, twin-engine plane plunged into an apple orchard in the western Massachusetts town of Southampton as it neared West Springfield and the Massachusetts Democratic State Convention.

Kennedy, 32, was coming here to be endorsed by acclamation for a full, six-year term in the Senate seat once held by his brother, the late President John F. Kennedy. Bayh, 36, had been scheduled to deliver the convention's keynote address.

They had left Washington after voting "yes" as the Senate enacted the civil rights bill.

The dead pilot was Edwin T. Zimny, 48, of Lawrence, Mass. Several hours after the accident, Cooley-Dickinson Hospital in Northampton said Kennedy and Bayh were in fair condition with Kennedy semi-conscious.

Kennedy was treated for back and chest injuries. Bayh suffered a hip injury. Mrs. Bayh was reported suffering from shock.

Edward Moss, 41, an aide to Sen. Kennedy, was reported in critical condition.

The senator's mother, Rose Kennedy, wife of ailing former Ambassador Joseph P. Kennedy, was reportedly en route to the hospital. Mrs. Steven Smith, a sister, and the senator's brother, Atty. Gen. Robert Kennedy, flew from Hyannis Port to Boston where they boarded a car for the drive to Northampton.

Shortly before 3 a.m. Eunice Kennedy Shriver, another sister, and her husband, Peace Corps Director Sargent Shriver, arrived at the hospital.

Sen. Kennedy's wife Joan had hurried to the hospital immediately after the accident was reported—at 11:20 p.m. She was escorted by Gov. Endicott Peabody who rushed her out of the convention hall during the roll call which brought him the convention's endorsement for re-nomination.

Within minutes after the roll call, the shocked convention recessed. Cheers rang out when the chairman, John E. Powers of South Boston, announced that Kennedy had survived the crash.

Reconstructing the crash, police said it had been raining earlier in the evening and ground fog had settled as the plane neared West Springfield. The pilot was believed to have attempted a landing at Barnes Airport in Westfield, a Springfield suburb.

One witness said the plane's cockpit was ripped open "like it had been cut with a can opener."

A revolving red beacon atop the plane led searchers to the wreckage.

Shoplifter Fined LISBON — Kathryn Ann Barber, 18, of Grant St. was fined \$25 and costs Friday night by Mayor Dean Stockman for petty larceny. She was cited Friday at 2:05 p.m. for shoplifting at the Hillyer IGA Foodliner by Willard Hillyer, owner.

water couldn't count on in the first place.

Goldwater is said to be convinced that he will inherit some of Gov. Belson A. Rockefeller's delegates, despite the New Yorker's swing behind Scranton.

An Associated Press survey now gives Goldwater 694 delegate votes—more than the 655 needed for nomination if he can hold them. But Goldwater is said to feel he needs more to be sure of the nomination—an insurance pad of about 100 delegate votes.

Goldwater, it is said, recognizes as a political fact of life that Scranton will succeed in moving some delegates out of his column.

Goldwater does not expect any fight over the platform to be drafted for the party at San Francisco. The senator will appear before the platform committee July 10.

He plans to make a general statement, and urge the committee to draft a brief statement of GOP principles to guide candidates in the campaign.

The senator is pictured as believing there will be no platform conflict over the civil rights bill. He figures it will be signed into law by convention time, expects nothing more than a Republican promise to uphold that law, and will subscribe to it.

Goldwater was one of six Republicans to vote against the bill Friday night. Twenty-seven Republicans were in favor of the legislation as the Senate passed it, 73 to 27.

caused by lightning around 3 a.m.

The first came from the home of Dan Beaver on Dresden Ave., where a bolt apparently hit the television aerial, burning out the transformer in the TV set.

Then a call came from Ronald Wathey of Center and Lisbon Sts. where the lightning burned out the wiring in a range.

Damage apparently was minor in both cases.

There were at least two separate storms during the night. Another about 5 a.m. brought heavier rain but there were no reports of washouts within the city as had marked Friday morning's storms.

Temperatures climbed to the 90-range yesterday and may go to 88 today.

The downtown had a 66 reading at 6 a.m. and 65 to 70 may be the low tonight. Sunday will see little change in temperature for the first day of summer, which is to arrive at 4:57 a.m.

Massachusetts, Rhode Island and New Hampshire. The Associated Press poll of delegate votes gives Goldwater 694 — 39 more than needed—and Scranton 130.

Most of the delegates in this area are favorable to Henry Cabot Lodge, whose backers have thrown their weight behind Scranton.

"I want to meet with these delegates, give them a chance to ask me questions, to get to know me," he said.

Scranton's quest for the 24 Kentucky nominating delegates proved inconclusive.

Scranton met with them and members of the state's GOP committee for 25 minutes during the 2 1/2-hour visit in Louisville. At least 17 lean to Goldwater and before the Scranton party left for Boston there was no indication of any change.

At a news conference in Louisville, Scranton said he didn't know if he picked up any votes.

# the BIG inch

The ruled box above is a one-inch ad. It measures one column wide by one inch deep.

It costs daily contract advertisers only .96 cents.

It looks kinda lonesome by itself.

But look at it this way:

What you get when you buy a one-inch ad in the East Liverpool Review is not just a single inch of space in the paper, but one inch multiplied by 17,161 copies daily.

So you are really buying 17,161 inches, which at 168 inches per page would be some 102 full pages of printed newsprint.

That's a mighty big chunk of space for a cost of only \$.96. And that price includes delivery to the reader's front doorstep.

Just imagine the cost of reaching all those Review Area families by postcard. It would amount to \$686.44 just for postage.

**BUT THE REVIEW DOES IT FOR ONLY .96 PER INSERTION!**

So you can see that a little one-inch ad is really a pretty BIG inch when it's advertising space in the Review. And the figures show that it's the most effective and economical way possible to let people in this Tri-State area know that you have merchandise and services that they could use.

Let a Review representative show you how a little BIG inch can wake up sales for you.

## Moral Issue Settled

History will record the statistic that after 82 days of parliamentary stalling and legalistic rag-chewing the U.S. Senate was able to do what an overwhelming majority of its members had wanted to do all the time — acquit itself of the moral obligation to pass the 1964 civil rights bill.

But history also should record that this bill was turned into a battleground for a distressing debate between an assortment of legalists and the moralists who had given it their all-out support. The legalists had no chance to win, but, being legalists, they fought to the bitter end in the hope of finding a technicality to minimize their loss.

In the course of dredging up arguments to keep the debate going and to support their policy of obstructionism at any cost, they were guilty of gross misrepresentations of the bill's text and purpose. Worse even than their misrepresentations of the proposed law were their misrepresentations of the problems that had caused the law to be proposed.

THE UNITED STATES can no more continue to exist as a republic with a fraction of its states spurning and scorning the Constitution than it could hope to exist, in Abraham Lincoln's time, "half slave and half free."

This is either an undivided nation whose laws are applicable in all its parts, or it is a mockery of what it purported to be when it was founded and what it was confirmed to be when the rebellion of the southern states was repressed a century ago.

There has been infinite patience with the recalcitrant minority that has refused to accept the authority of the U.S. Supreme Court and to acknowledge the

federal concept that the states retain their sovereignty only within the framework of that concept.

It is time now for Americans in those states whose politicians have been preaching "interposition" and waving the Confederate flag to assert themselves. It is time for them to instruct legalists who have been making a fat living agitating racism and splitting hairs over the meaning of plain words to return to their county-seat law practices.

Otherwise, the legalists will be endlessly busy figuring out ways to flout every provision of the new law and turn it into a travesty of majority rule, as they did the 14th amendment to the Constitution. Otherwise, they will hold up the republic to ridicule in the eyes of the world.

THE CIVIL rights bill in 1964 was a moral issue. It was so presented by Sen. Everett Dirksen, Illinois Republican, minority leader in the upper house.

It was so regarded by the coalition of majority Democrats and minority Republicans who were willing to vote for it all the time but had to hold up more than 80 days while an irreconcilable minority of legalists stewed and stalled.

The moral issue now has been settled. But the legalists who twisted and tortured it have not been stilled. They now will busy themselves in schemes to flout the new law.

Have they no respect at all for the majority?

Did they have their tongues in their cheeks when they took their oaths to uphold the Constitution of the United States?

Is there nothing that could make them shut up and admit that the Confederacy did not win the Civil War?

By VICTOR RIESEL

Quietly, Attorney General Robert Kennedy, the Justice Department and its so-called "Hoffa desk" are being investi-

gated by a special congressional committee.

This is what Teamsters chief Jim Hoffa has been demanding for years. Apparently he has whipped

up enough strength in the House of Representatives to force the Judiciary Committee chairman, Emanuel Celler, to appoint a five-man subcommittee to look

into Hoffa's drum-beating charges that he is suffering persecution by prosecution.

Leading the congressional band which has been so sensitive to alleged encroachments on Hoffa's civil rights is Illinois Congressman Roland Libonati, long a power in Chicago politics. He is a member of the Judiciary Committee, though he is not on the five-man group named by Mr. Celler to probe Bob Kennedy.

Celler, who also heads this smaller investigating body was concerned over the leakage of the news of its activities.

HE TOLD this column that this was a "delicate matter" and he did not want any per-

son or force "to make a cat-paw out of the investigation."

"There have been a number of charges concerning abuses of power by the attorney general," said Celler, "So I appointed a special committee to examine the truth or falsity of these assertions. We're doing everything in executive session. There will not be any public forum while there is a pending case. We don't want to be responsible for a mistrial. Nor are we going to retry the old case. However, if there are any violations of Hoffa's civil rights, we'll take some action."

The first move of the five-man subcommittee staff was to get a complete transcript of the Chattanooga trial which ran

from Jan 20 to March 4. It's voluminous and is being minutely examined by two special counsels.

APPARENTLY the Hoffa forces haven't the slightest intention of permitting the subcommittee to operate quietly and in executive session.

Already allies of the Teamsters chief in and out of Congress — where surprisingly there are plenty — are rounding up favorable character witnesses. They have been rounding up congressmen and seeking out labor leaders who would be willing to testify under oath as to Hoffa's sterling character despite the Chattanooga conviction for jury tampering.

Congressman Libonati, who

is deeply worried by what has happened to Hoffa, has prepared 30 questions for the subcommittee to pursue. These range all the way from inquiries on whether someone in the Justice Department tried to get someone to put a "voodoo" hex on a witness in the trial to whether the marshals had brainwashed the jury or given wild parties.

Libonati wants to know if "call girls" were employed or whether there were lewd goings-on in one of the hotels where many of those involved in the long trial were quartered.

The Chicago congressman seems particularly perturbed by Edward L. Partin, the Teamster Jim Hoffa. Libonati wants to know if Partin was tied up with Castro or any of his "Communist generals."

SUCH INTENSITY on the part of the representative from Chicago has startled insiders. Some observers are saying privately that if the congressman really is interested in Teamsters who tried to do business with Fidel Castro, the legislator could find one high official who actually attempted to do business in Cuba.

Libonati might also be interested in a chap who has lived in Hoffa's home for many years — a fellow by the name of Charles (Chuck) O'Brien. He soon will stand trial on federal charges that he indirectly offered a \$25,000 bribe to a juror to swear, after the recent jury-tampering trial, that the Teamsters president did not receive a fair trial.

After the conviction, the indictment charges O'Brien indirectly offered the money to Mrs. Callie T. Key to induce her to make a false sworn declaration that Hoffa did not receive a fair trial. According to the federal government, such a declaration would have been used to support a motion by Hoffa for a new trial.

OR LIBONATI'S pursuit of justice could take him back to his native Chicago. He is on the Judiciary Committee and inquiry in the proper places in the Chicago police department could get him a copy of sworn testimony by one of its officials to the effect that one of the city's influential Teamsters, Joey Glimco, is considered an intimate of the Cosa Nostra chiefs there.

The Justice Department has just about completed its probe of Glimco and the public soon will be hearing of it. Glimco is a friend of Hoffa's. Will Congress be called on for still another probe into his civil rights?

The Smacking Of Parched Lips Is Heard Throughout The Land.

## Artificial Lung Offers Hope For Babies

By JOSEPH R. HIXSON

PHILADELPHIA — The baby looked blue from the moment of birth. The doctors at Children's Hospital in Philadelphia suspected hyaline membrane disease, a thickening of the lining of the lung that killed the late President Kennedy's second son within a day of his birth.

When the doctors measured the oxygen in the baby's bloodstream, they found only one-fifth the amount that should have been there to sustain a 5-pound, 8-ounce infant.

So the pediatrician ordered an oxygen tank and a tiny mask. But over the next 12 hours, the baby's breathing came in smaller, faster puffs and he was destined to die.

The pediatrician called Dr. William J. Rashkind, a children's heart specialist at the hospital, who had been working on a substitute lung to take over a struggling baby's breathing. It is a device not much bigger than the glass cylinders on expensive cigars.

IT ISN'T really a lung at all, Dr. Rashkind explained. The device is just a system of four small cylinders nested inside each other with an eighth-inch of space between them. In that space, blood and oxygen can be mixed without bruising the red blood cells and without any need for the use of mechanical pumps.

When Dr. Rashkind went to the pediatric treatment room that day last December, he and the nurses hooked one plastic tube to the baby's femoral artery (the biggest one in his thigh) and ran the blood into the little nested cylinders.

The blood flowed into the bottom of the innermost and smallest until it was full. Then the

blood ran out the top and spilled down over the outer walls, then into the bottom of the next larger cylinder and so on.

When Dr. Rashkind hooked the plastic tube from the outermost cylinder to the baby's femoral vein, the blood went back to the baby's circulation. Now he bubbled oxygen from a tank into the incoming (artery) tube, and he had his lung. The system uses only an ounce-and-a-third of the baby's blood, pumped by the infant's own heart.

"My own child has 49-cent toys that are more complicated," Dr. Rashkind says in an article on the pump in the current issue of Medical World News, a doctors' publication.

WITHIN MINUTES, the baby skin changed from that dire, suffocating blue to a healthy pink. Sloshing delicately inside the cylinders, the blood was picking up oxygen even though the baby's chest was completely motionless. The child had stopped breathing completely.

So for 27 hours, the little plexiglass device kept the child alive. Dr. Rashkind says that when babies struggle to breathe in hyaline membrane disease, they often survive if they can stay alive for these first crucial two or three days. That is why he developed the miniature "lung." Every year, more than 70,000 babies die in their first week of life, a majority of them because of breathing troubles.

The little boy looked as though he might live. Dr. Rashkind unhooked him from the machine, and he died right away. At autopsy, the pathologists found that the baby had a defect in one of the arteries in his brain and would not have lived in any case.

## Health Service Consolidation

One of the most encouraging actions undertaken by the East Liverpool Board of Health in recent years was this week's move to investigate joining the Columbiana County Health Department to provide improved services.

In terms of finances, a full-scale health program and efficiency, the move apparently would be a sensible one, as some board members declared.

The City Health Department does not have a physician as a health commissioner; the present commissioner is unable to perform his duties due to illness, and there is a need for an additional sanitarian.

Furthermore, the department does not offer fulltime clinics or immunization programs and cannot pay for other services, such as tuberculosis X-rays.

THE CITY health department has over the years maintained a fairly satisfactory health program, considering the limited funds available.

But the time has come to re-evaluate the total picture of public health on the community level, and relate the program to 1964, the changed character of the city and its environs and the financial structure of the department.

For a long time, national public health authorities have recommended a minimum population of 100,000 for local health districts except in special cases.

The trend in Ohio and elsewhere has been for a merging or combination process which in the period 1960-62 alone found Ohio's 238 districts — 88 county and 150 city districts — reduced to 129.

A legislative study listed the advantages of consolidation as simpler administration, broader financial resources, improved personal management, less duplication of fees and inspection, simpler physician reporting, more effective use of financial aid and more economical operation.

THE DISADVANTAGES included fear of loss of "home rule," the possibility that wealthy districts might pay a disproportionate share of support, loss of status for some health commissioners, decrease in quality of service with the change from local control, loss of civil service status of some employees, and difficulty in designing a representative combined board of health plan.

In East Liverpool's case many of the advantages and disadvantages would not necessarily apply.

Home rule is not at stake in the current problem facing the city board; adequate public health service is.

An acute awareness of health needs has been shown by the board in the past, and those in the community concerned about health service should feel confident the board will conduct the study of consolidation with a similar regard for the best interests of the public.

## Platform Builders: Attention!

In quiet air-conditioned rooms scattered across this Republic, men of skill and perspicacity are writing drafts of platforms for the two major parties.

What will they have to say about topless bathing suits?

How will they weasel-word their declarations on this sensitive issue so voters will be unable to tell whether the party is for or against progress?

We can imagine how they must be struggling with this problem, sharpening pencils, trotting to and from the water cooler, cracking their knuckles.

"This party reveres the female figure and would advocate nothing to sully its pristine beauty . . ." That won't do.

## Environment

By inclination and persuasion, I am an environmentalist.

With due allowance for built-in limitations, I think every child is born mentally blank and what happens to it from then on determines what it will be.

I feel so sure of this I believe a baby picked up whenever it cries turns into an adult pest that makes a loud noise every time it wants attention the rest of its life.

I think children are clean slates on which is written the record of their environment. Find out what happened to them in their impressionable stages and you will know their problems.

This is why I get the creepy-weepies when I think about the whirlwind being generated for this republic by jamming millions of human beings into huge cities, lacking space, natural surroundings, normal relaxation and decent examples of serene life.

IF HUMAN BEINGS were to do to lower animals what they do to one another in respect to environment, the law would be invoked.

There are laws about how many cattle can be crowded into a cattle car but not about how many down-and-outers can be stuffed into a cold-water tenement in New York City that already is overpopulated with rate.

Gangs of wild kids roam the streets of cities, mugging, pillaging, terrorizing and vandalizing. But let one maverick steer break out of a stockyard while awaiting an appointment with the executioner and a roundup is staged with every policeman who can make the scene.

WHEN THE whirlwind of inhumane environment swirls and roars, people wring their hands and wonder what caused it. It does not occur to them that animals in zoos are better cared for than the apprentice thugs, terrorists, muggers, hopheads, reefer smokers, thieves and jail-bait jam-packed into huge cities.

The miraculous thing is that some city kids forced to live in their unnatural and inhumane manner rise above their environment and turn out all right. Whereupon they are pointed to as examples to prove there is nothing wrong with the environment, only with the kids who fail to rise above it.

Bosh.

As Bobby Burns said, "Man's inhumanity to man makes countless thousands mourn."

But it shouldn't surprise anybody. Not after knowing what's done to kids in the big cities—as if we were trying to raise a generation of pariahs and doing a bang-up job of it.

## Kenton Resident Becomes Bride Of James H. Trotter

Miss Louise Margaret Lemon, daughter of Mr. and Mrs. Ralph D. Lemon of Kenton, Ohio, became the bride of James Howard Trotter, son of Mr. and Mrs. Thomas James Trotter of Edgemont Pl., last Saturday afternoon at 2 o'clock in the Church of Christ at Kenton.

Baskets of white gladiolus and Shasta pompons, along with seven-branch candelabra, formed the altar background for the double-ring ceremony performed by the Rev. Frank C. Ransdell, pastor. Satin bows marked the family pews.

Given in marriage by her father, the bride wore a floor-length gown of Chantilly lace over taffeta. The bodice was fashioned with a bateau neckline and long, pointed sleeves. Lace appliques frosted with iridescents and seed pearls enhanced the bell-shaped skirt.

Her bouffant veil of imported silk illusion was attached to a scalloped crown of pearls and sequins. She carried a cascade bouquet of white sweetheart roses and stephanotis.

Miss Beverly Watson of Massillon was maid of honor and Miss Catherine Trotter, sister of the bridegroom, bridesmaid. They wore gowns of maize sheen over taffeta, styled with bateau necklines, elbow-length sleeves and bell-shaped skirts. Headresses were matching rose clusters with pout veils. They carried cascades of yellow pompons.

Roger Darding of Jamestown was best man. Ushers were Charles Hufford of Sycamore and Ralph Urmon of Rogers.

The mother of the bride chose a blush beige lace sheath with pink accessories and a corsage of pink roses. The bridegroom's mother was attired in ice blue lace with white accessories and white carnation corsage.

## Darlene Hughes Is Bride Of Norman Eltringham

The Second Church of Christ in East Liverpool was the scene of the marriage of Miss Darlene Hughes of Wellsville and Norman Eltringham of Calcutta the evening of June 12 at 7:30 o'clock.

The bride is the daughter of Mrs. Lois Hughes, 1121 Hillcrest Rd., Wellsville, and the late Leon Hughes, and the bridegroom is the son of Samuel Eltringham of Calcutta and the late Mrs. Norma Eltringham.

The double-ring ceremony was performed by the Rev. Blair Wittington, pastor, before members of the immediate families and friends. Mrs. Theda Smith played the organ music.

Given in marriage by her brother, Walter R. Hughes, the bride was attired in a beige street-length dress with toast brown accessories.

She carried a Colonial bouquet of white carnations tied with beige streamers. Her attendant, Miss Donna Infanti, of Wellsville wore an aqua street-length dress with white accessories and carried a Colonial bouquet of aqua-tipped carnations.

James Miller of Wellsville was best man.

The bride's mother was attired in a blue princess-style dress with white accessories and her corsage was white carnations. The bride's grandmother, Mrs. Cora Dailey, wore a pink print dress and black accessories.

A reception followed at the home of the bride's mother. Aides were Mrs. Nadyne Diezmann, sister of the bride, Mrs. Wilda Shafer and Miss Judy Shafer. The buffet table was centered with the wedding cake topped with a miniature bridal couple and decorated with white

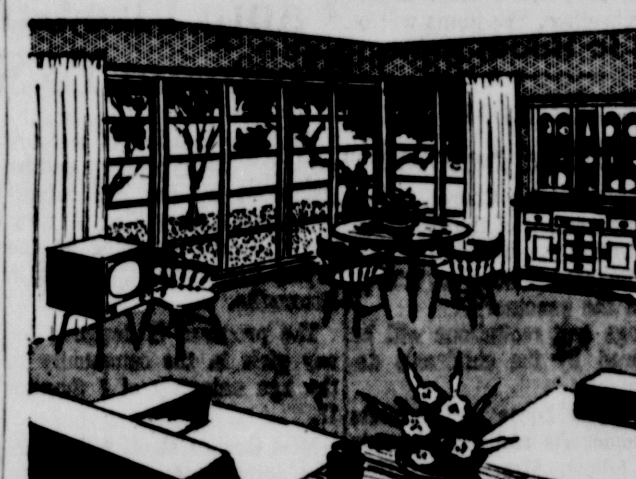

candles, an arrangement of pink and red roses and large satin bows and streamers.

The bride just completed her junior year at Wellsville High School and the bridegroom was graduated from Beaver Local High School with the Class of 1963. He is employed at the Lisbon Steel & Fabricating Co. at Lisbon, and at the Hilltop Theater in Chester.

They are residing with the bridegroom's father in Calcutta following a brief honeymoon. Out-of-town guests were from Youngstown, New Waterford, Newton Falls, Princetown and Pleasantville, N. J.

Let's Talk  
about your home  
By Crook Furniture

OLD FAVORITES—NEW SETTING

The early New England settlers did not have an easy time of it. Very often their homes which they built themselves with native logs consisted of only one room. Their furnishings, also self-built, were restricted to essentials in designs remembered from the cottages of their homeland. This was the origin of our Early American style.

Today, millions of us love and cherish these old New England designs, and as our needs are more varied, current designers are constantly adapting new ideas to Early American furniture.

We believe that the sturdiness and homespun, easy-going quality of provincial furnishings make them the perfect choice for the family room. This room, usually, takes the hardest wear of any room in the home, and should be planned accordingly.

Sketched above is a family room which serves as a combination dining-sitting room

The floor covering should always be suited to the room's function. If you are looking for rugged, long-wearing rugs or carpeting that will add beauty and distinction to your home, we have them here for you. Magnificent textures and handsome decorator-approved colors. From sq. yd. \$7.95 and up.

## WHAT IS A MONUMENT?

A MONUMENT IS FAR MORE THAN A MEANS OF MARKING THE RESTING PLACE OF AN INDIVIDUAL OR A FAMILY.

IT IS A SYMBOL OF DEVOTION. IT IS A TANGIBLE EXPRESSION OF THE NOBLEST OF ALL HUMAN EMOTIONS—LOVE.

IT SHOULD NOT REFLECT SORROW BUT RATHER THE LONG YEARS OF WARMTH AND AFFECTION TYPICAL OF THE AMERICAN FAMILY.

A MONUMENT IS BUILT BECAUSE THERE WAS A LIFE — NOT A DEATH; AND WITH INTELLIGENT SELECTION AND PROPER GUIDANCE SHOULD INSPIRE FAITH AND HOPE FOR THE LIVING.

AN ESSENTIAL PART OF OUR AMERICAN WAY OF LIFE, A MONUMENT SHOULD SPEAK OUT AS A VOICE FROM YESTERDAY AND TODAY TO AGES YET UNBORN —

# FEATURE PAGES

The trumpet section rehearses an arrangement of "Cherry Pink."

Oak Glen's corps of majorettes struts through a practice drill. Left to right are Sally Rossey, Mary Margaret Anderson, Fonda Wilson, Penny Bailey, Karen Lucas, Linda Sebold, Ginger Newbrough and Nancy Morris.

## Band Camp Fun

By CHARLES CRONIN

Firm believers in the principle that "Practice makes perfect," the Oak Glen High School band members are winding up their first week of summer camp at Raccoon Creek State Park tired but happy.

It's the first camp for two-thirds of the 104 musicians, majorettes and marching members of the Hancock County school, and an experience they won't easily forget.

The students quickly got into the spirit of camp upon their arrival June 14, and morale has remained high despite a rigid schedule of rehearsal after rehearsal, drill after drill, at the camp in the thick forests of the Beaver County park.

Floyd Lancia, director, who feels success on the practice field usually means a good reception in a parade, halftime show or concert hall, has become hoarse from supervising the daily schedules.

**LANCIA'S ROLE** IS much like that of a top-sergeant — keeping the youngsters hard at work, yet allowing enough moments of pleasure to maintain interest.

Marching drills are held on a large grassy area. The tuba players, in particular, toil hardest, sweating profusely in the bright sunshine while practicing a "dip-and-dive" maneuver to add color to the band's repertoire.

When not actually rehearsing on instruments or sharpening ability to march smartly in time to the cadence of the drum section, the youngsters take part in softball, basketball and volleyball games, write letters, dance or simply relax in the shade.

The job of preparing food for 104 hungry boys and girls is that of the Oak Glen Band Boosters, headed by Mrs. Alvin Reed of Chester. The cooks have plenty of modern conveniences in the large kitchen. But the band members claim they are "roughing it" elsewhere in the camp.

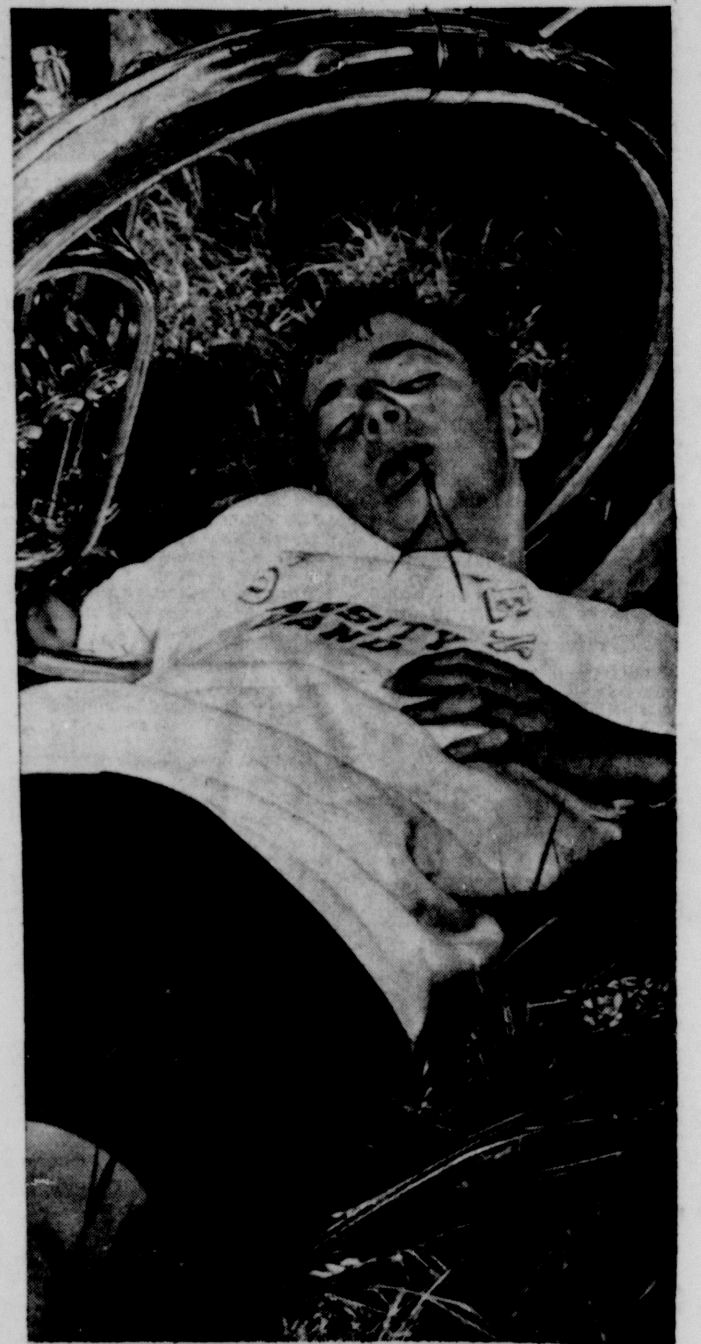

**WITH NO** electricity in the log cabins, the girls use the beam of flashlights to put up their hair in curlers each night.

To spur the spirit of competition, Lancia has assigned the musicians to four different units. The winning group will be named the final day of camp June 25.

Cost of sponsoring the 12-day summer camp will be roughly \$1,500, footed by the Boosters Club. The band at full strength numbers about 120, but not all attended.

Upon their return, the band members will perform at a 10-cent supper June 27 at 4 p.m. at the high school near Pughtown. It's a fund-raising event for their trip to the World Fair in August.

Oak Glen will appear in area parades in the forthcoming weeks, the first July 4 in Weirton. Then, the youngsters will have discarded their sun-glasses and bermuda shorts for Columbia blue and gold uniforms and step out smartly to exhibit the skills they learned at the camp.

A "Z"-note is hit by tuba player Jim Whitehill.

A trio of flute players — Barbara Glass, Charlene Unger and Barbara Milby — try their hand at volleyball.

On duty in the kitchen are Mrs. Stewart Glass, left and Mrs. Alvin Reed.

Linda Swiger hits a high note on her trumpet.

Paul Pattison, Tom Martin and Bill McKnight form part of the color guard of Oak Glen's band.

## Any Trace Of Tracy?

# Area Astronomers Await Eclipse

If Dick Tracy is really on the moon, area astronomers probably will spot him Wednesday night.

This is when they will have their telescopes trained on the sky to watch a total eclipse. One of those who will be observing with interest is Andy Mellon, 14, of near West Point.

Andy's enthusiasm for astronomy led him to construct his own reflector scope with a five-foot barrel.

He has his doubts about Dick Tracy's lunar escapades and laughingly says he doesn't believe anyone will see him.

The eclipse will begin Wednesday evening as the moon moves into the earth's shadow and authorities at the Buhl Planetarium at Pittsburgh say that it should be seen well in the region, if the skies are clear.

Lunar eclipses are comparatively rare because the path of the moon around the earth is tilted slightly to the path of the earth around the sun. Usually the moon misses the earth's shadow by passing north or south of it.

THE TOTAL eclipse will already have started when the moon rises at 8:47 p.m., totality having begun at 8:16 p.m. This is the moment when the moon will have moved completely into the umbra, the dark central part of the earth's shadow.

Since the moon will appear low in the southeast, observers will need an unobstructed view of the southeastern sky. The sun will not set until about 8:52 p.m., so it is the latter part of the eclipse which will be seen best as the sky darkens.

The moon will remain completely eclipsed until 9:58 p.m., then will move slowly out of the umbra.

As it does, the edge of the umbra will seem to be curv-

ed or as a portion of a circle, visual evidence of the fact that the earth is a globe. Only a globe can always cast a circular shadow in all positions. The moon finally will leave the umbra at 11:04 p.m.

One thing that cannot be predicted in a lunar eclipse, according to the Buhl Planetarium, is the shade of red the moon will assume. This depends upon the state of the earth's atmosphere at the

time. Sometimes the moon is a dull copper color, sometimes a brilliant red.

Andy, a ninth grader at Beaver Local, won the Visual Buhl Astronomy Award at the Buhl Planetarium Science Fair in Pittsburgh this spring, and placed third in the eighth grade division in the Tri-State Fair at Steubenville.

His telescope cost approximately \$200, and magnifies 48 times.

The reflecting mirror was just a blank when he received it, and it took him about 45 hours just to finish the grinding and polishing, all done by hand in the kitchen of his home.

The grinding itself was difficult, but the youth did it with both wrists broken — he fractured them when he ran into a wall in gym class at school.

The mirror is concave to reflect received light onto a small flat mirror. In turn, a magnifying eyepiece is used to look at the image on the small mirror.

It took Andy another 25 to 30 hours to mount the mirror. It measures about 5-inches across and is about an inch or two thick. All in all, between 90 and 100 hours was spent on the project.

The mirror is set on an aluminum holder and has adjusting screws to focus the light received back to the second mirror under the eyepiece.

The case is a special aluminum tube and the base is built from heavy pipe and an old restaurant table base. This provides a very solid mounting so the scope can be held with a minimum of vibration.

Andy said he is primarily interested in the formation of the stars. He also is interested in weather and plots the course of the moon through the sky at different periods.

His brother, Timmy, 12, also is interested in astronomy but has more of an interest in nature. At present, Timmy has a snake in a cage. Both boys are taking a course in taxidermy.

The two are the only "Lone Scouts" in Columbiana County. They are in the scouting program, but do everything alone and do not belong to a troop.

Another brother, Joseph, 20, is studying for the priesthood at Erie, Pa. The father said all three boys have always expressed an interest in having a telescope. He urged them to construct their own as he felt they would appreciate it more. Andy took him up on it and the other two followed with interest.

Andy also plays in the Beaver Local Band and is a member of the Salem American Legion "Quaker City Band."

## County Departments Linked

# New Fire Radio Network Starts Operation

By HARRY STEWART

The fruits of three years work by a number of firemen in Columbiana County were realized this week with the installation of a master radio control at Lisbon to tie together all departments in the county.

The network operation marked a major achievement of the Columbiana County Firemen's Association.

Installed at the Sheriff's office at Lisbon, the new master control will be operated by a member of the sheriff's department.

The large unit, purchased by the Columbiana County Commissioners, provides communication with any department in the county through the Lisbon headquarters. This will permit the departments to call on others for aid or specialized equipment.

THE IDEA WAS started over three years ago when various fire chiefs in the county got together to discuss an order from the Federal Communications Commission that police and fire departments were going to have to operate on separate radio bands.

The number of police departments had grown over the years and with the addition of the fire departments using radio, the airwaves had become crowded and sometimes messages were getting garbled.

At the first meeting of the chiefs, discussion was held on attempting to get all the fire departments to operate the same frequency for convenience.

The chiefs decided that it would also be a good time to have the departments form a county-wide organization.

This idea was well received and the Columbiana County Firemen's Association was formed. Fire Chief Robert Lewis of Wellsville served as the first president and Jim Wernet of Hanover Township served the second year. Robert Samek of Negley is president now.

An immediate study was started on radio communications and the technicalities involved. Communication hookups in other districts were investigated.

From the outset the firemen decided no action would be mandatory and each department would have to cooperate on a voluntary basis. As a result of the efforts, practically all the departments have equipment that is very similar and standardized.

A COMMITTEE WAS named to meet with the County Commissioners to discuss installation of a base station to handle radio communications for volunteer department without a base station of its own.

The base also could serve in relaying messages from a

department that was out of range of its own base station. The commissioners were receptive to the idea and the equipment purchased. The operation will fall under the jurisdiction of Sheriff Russell Van Fossan.

Approximately 22 departments in the county belong to the Association. Several others do not.

At present, a committee is working to standardize call signals and identification signals. The primary interest is to keep the signals as simple as possible so as to avoid confusion.

It was pointed out signal duplication can be complicated. For example one department might use the call "Signal 22" to mean aid is needed while another department might use the same call to mean everything is okay.

The committee now is considering using the same calls utilized by the sheriff's department or just plain language transmissions. Calls for mutual aid will be the same for all departments, regardless of how other calls are used.

The main concern is to keep them as simple as possible.

FIREMEN also are preparing a county map in conjunction with the radio setup.

All mobile units are tuned to the same frequency so the men on the trucks can talk with either the home station or the base station in Lisbon. The departments were given a choice of either a high or low band frequency.

After investigation, the departments decided it would be better to operate on the high band because of the terrain of the county. The high band also has less electrical disturbance, firemen pointed out. The frequency is 154.07.

Looking to the future, the radio hookup has been plan-

ned so that it will be possible to sound a siren in any community from the Lisbon station. Washington County, Pa., has set up similar to this.

Some towns do not have firemen on call at all times. In these cases an individual

could dial the central headquarters and the man could sound the siren by remote control. He then could use the radio to direct the volunteers to the fire.

Leaders of the firemen's association are very enthusias-

tic over the achievements of the group.

The association has created a closer working relationship between the departments, they point out. Other achievements have been fire schools and training programs.

difficult for his doctor to treat him. Have in mind the salient facts about past illnesses, operations, accidents, even when they are years in the past. Have your questions ready, too, and never hesitate to ask the doctor about anything that is puzzling you.

Most patients are embarrassed about discussing the fee when they first go to a doctor. The best thing for both the patient and the physician is to bring up the subject of fees on the first visit. No one should mind a frank discussion of charges.

The patient seeks the doctor's opinion about the state of his health, and he seeks advice on what to do about it. The time and money of both doctor and patient may be wasted if you don't follow the advice.

## Medical Tips

Do you know how to be a good patient?

There's more to it than just wanting to be well. If you know how to be a good patient, you can receive even better health care, get more for your money, and make your doctor's job easier.

In a new pamphlet on the subject of "How to Be a Good Patient," the American Medical Association urges that it is important to choose a family physician before illness strikes. Meet him personally, have your medical history on file in his office and schedule periodic physical examinations. Then, should illness strike, you'll know where to turn.

There is a real advantage

in going to the doctor's office, rather than insisting that he come to your home. Proper examination, to help the doctor arrive at a diagnosis, can be done much better in the office, where everything is at hand to make it thorough.

In phoning the doctor, when a house call is essential, be prepared to tell him briefly all the facts in the case, the symptoms of illness, temperature and other factors. It is impossible for the doctor to carry with him all of the tools of modern medicine, but if he is told what to expect, he can bring along some of the equipment and medicines that might help in your case.

At home or in his office, tell your doctor the whole story. The uncommunicative patient merely makes it more

# 'Dull' Ordinance Reveals Facets Of Local History

By ROBERT POPP

Although it appears dry as dust on the surface, a lengthy ordinance which Council enacted the other night to convey riverfront "flow easements" to the U. S. Corps of Engineers contains many little-known facets of East Liverpool history, some of them dating back nearly 150 years.

The fact the legislation is interesting to students of local lore is purely incidental.

The data it contains is part of the legal description of more than two dozen tracts of city-owned land for which easements were conveyed to the federal government as the result of the rise in the river's level resulting from completion of the Stratton "super dam."

Dredged out of ancient Courthouse records and old city files, the legal descriptions give some further insights into the lay of the land when East Liverpool was a tiny riverfront community.

For instance, the first notation refers to "an unnamed alley on the plat of the Town of Jethro dated Jan. 9, 1838."

Presumably the little riverfront residential area in a low-lying spot near the old West End School once was a separate community, complete with a plat naming and dedicating its streets.

JETHRO NOW has shrunk to less than half of its former size, what with razing of a number of homes to make way for a fill placed across the mouth of the hollow as part of the construction of the East Liverpool-Wellsville "super-road."

Another property description refers to "the same land as that shown as Peach Alley on the plat of the Original Town of Liverpool, dated July 4, 1816."

The prefix "East" later was added to the community's name to avoid confusion with another Ohio city that also bore the name Liverpool, according to local historians.

## Stamps In The News

To commemorate the 50th anniversary of its first air mail flight, Australia will issue two new air mail stamps on July 1. Both stamps are of the large commemorative size and depict a Blériot plane of the type in which Maurice Guillaux carried the first official air mail from Melbourne to Sydney in July 1914.

The 5 pence is sage green and the 2 shilling 3 pence is red.

Australian Postmaster General Hulme also announced that a new air mail sticker will be issued on the same

date. It will be larger than the present sticker and will feature the Southern Cross constellation of stars as used on the Australian flag.

The Yemen Arab Republic has joined the many nations philatelically honoring the late President John F. Kennedy. Yemen overprinted a set of three triangular air-mails which paid homage to the world's astronauts. A photo of Kennedy flanked by the dates 1917-1963 in English and Arabic appear beneath the original illustration.

Austria has issued an additional value to its series of monumental buildings. The 50 groschen coil stamp in blue-black is the same design as the existing 50 except that it comes in rolls of 2,000. The stamp was designed by Prof. Hans Strohhofer. Also issued by Austria is a new 1.80 schilling stamp commemorating the Second Parliamentary and Scientific Conference held in Vienna and sponsored by the president of the Austrian Federal Republic. The stamp shows the figure of Pallas Athena superimposed over the Austrian Parliament.

Reports received, from Post Office Headquarters in London, England, show that the recently issued Shakespeare Festival stamps have proved so popular that the demand for them has been greater than for any previous special issue of British stamps. For the first time in its postal history the British Post Office had to order a reprint of stamps.

On the first day of issue, April 23, there were long lines of people waiting to purchase the Shakespeare stamps. At the Trafalgar Square Post Office the line was 10,000 long.

### LEMON BISQUE

1 can milk chilled.  
1 box lemon Jello.  
1½ cup boiling water.  
½ cup honey.  
½ tsp. salt.  
3 tblsp. lemon juice.  
grated rind of 1 lemon.  
2½ cups vanilla wafers, crushed.

Dissolve Jello in boiling water and add honey, salt, lemon juice and rind.

Chill. When syrupy, add gradually to stiffly whipped milk. Put 1½ cups wafer crumbs into oblong baking dish or pan, place bisque

In the memory of some older residents.

Prior to the construction of the first system of dams and locks around the turn of the century, the river normally stood at a much lower mark. When the first system of dams went into use, it raised the river's pool considerably.

In the past, when the river fell to an unusual low, observers could spot a host of tree stumps in the muck not far offshore — denoting the area that once was part of the riverbank before the dams were erected.

The pool created by the Stratton dam is eight feet above the previous level off East Liverpool, so now there is a second row of stumps and the remains of trees not far below the water. Crews of men hacked down the trees and brush in advance of the raise in the pool.

THE ORDINANCE conveying the easements covers five legal size pages of single-spaced typewriting, replete with seemingly unrelated figures, dates and weird place names.

Council Clerk Lawrence J. Applegate, whose job it is to read every ordinance aloud before it is enacted, required at least 20 minutes to wade through the ordinance. Reading at top speed, he stopped twice briefly for a sip of water, then hurried on.

When it was all done and he sat back with a sigh, one of the councilmen said hurriedly — and jokingly — "I suggest we place this ordinance on second reading!"

Applegate registered surprise and dismay until he realized it was all a joke.

## The Law

"Discovery" is a most important factor incident to the trial of a lawsuit. Discovery and inspection enables a party litigant to make more adequate preparation for the trial and to obtain evidence from the opposite party for use at the trial.

The most common method of discovery is by way of taking the deposition of a witness or his witnesses by deposition.

Depositions are also employed to preserve testimony of an aged witness or a witness who may not be available for the trial.

A deposition is a statement, under oath, by a person regarding his or her knowledge of the subject matter of a pending lawsuit. Such statement is usually in the form of answers to questions asked by the attorneys who represent the parties to the lawsuit, commonly referred to as plaintiffs and defendants.

The questions are normally limited to a point in dispute in the lawsuit. A deposition is taken after the lawsuit is filed and before the actual trial begins. It is usually put down in writing by a public stenographer who is also a notary public.

Depositions can be taken and used in every type of lawsuit, including criminal cases. The right to disclose by deposition the story that other persons will tell about some issue of a lawsuit has been established by state law.

The actual procedure that lawyers must comply with in taking and using a deposition is also fixed by law. All parties to a lawsuit must be given notice in writing before a deposition can be taken so they can be present and ask questions of the witness. Witnesses are subpoenaed to a deposition just as they are subpoenaed to a regular trial.

All questions and answers in

the taking of a deposition are typed by the stenographer, bound, and certified. It may be filed with the court where the lawsuit is pending and be read at the time of trial if the witness becomes sick, or dies, or is outside the state so that he or she cannot be subpoenaed to the actual trial. By deposition process, you may examine business records as well as individuals.

Attorneys are allowed to ask questions of a witness in the deposition just as though they were in the courtroom in a real trial. In most instances, a witness can not refuse to answer questions unless the answer might incriminate him (make him subject to criminal prosecution).

The legislature has constantly attempted to regulate the trial of lawsuits so that all the real and honest evidence in the case can be brought before the judge and jury. The lawmakers have sought to prevent the concealment of facts that are important to a just decision. They have attempted to prevent winning a lawsuit by trickery or the cleverness of the lawyer.

### This 'n That

Grover Cleveland was the only candidate for Presidency who was elected for one administration of four years, defeated the next, and then re-elected the following. He won in 1884, lost in 1888, and then won again in 1892.

Rhode Island was the first of the original American colonies to declare independence from Great Britain, but the last of the colonies to ratify the federal Constitution.

The "Achilles' tendon" is the strong tendon at the back of one's ankle, attaching the calf muscle to the bone of the heel. When it is cut, an individual cannot run, has difficulty walking, and can no longer move his foot.

## Aide For Park To Be Sought

The possibility of providing free trailer space inside Wells-ville's Hammond Park for a supervisor was discussed at a meeting of the Park Commission Friday night at the park.

The commission said anyone interested would be provided free space for a house trailer and given water and sewage facilities in return for supervising the park to minimize vandalism.

Anyone interested may contact Fire Chief Robert Lewis, commission chairman. Lewis reported the park road will be repaired next week. The grading and oiling will be done by the city in conjunction with the Yellow Creek Township trustees.

The commission toured the park and found it in good condition. The ball park has been repaired and is an asset to the park, the commission said.

Plans were made to have city water extended to the park as the well and pump are not proving satisfactory.

Commission members are Pete Mase, Pete Amato, Richard Kevan, Wayne Rose and Mrs. Helen Welch. Next meeting is July 7 at 7 p.m.

**HOLLYWOOD, Calif. (AP)**—British actor Peter Sellers has been quoted as saying it's true he doesn't want to return to Hollywood, but vehemently denying reports he criticized the hospital which cared for him after his almost-fatal heart attack.

Sellers, who has returned to England, made a transatlantic phone call Friday to David Mirisch in Hollywood.

Sellers was making the film "Kiss Me, Stupid" when stricken. He was taken to Cedars of Lebanon Hospital.

Stories about Sellers not liking the U.S. film capital's working conditions resulted in a telegram from his co-workers on the picture, calling him an "unprofessional rat fink."

Concerning reports that he complained about the size of his hospital bill — estimated by trade papers at \$38,000 to \$65,000 — Sellers told Mirisch: "That's an absolutely ridiculous and preposterous lie. After all, I died — I really died — eight times in that blessed place and each time they brought me back to life."

The hospital has not disclosed the size of Sellers' bill.

**KOBE, Japan (AP)**—Malaysian King Agong Yang Di-Pertuan and his queen were forced by bad weather today to remain in their hotel atop 3,000-foot Mount Rokko outside Kobe, Japan.

The king had scheduled a round of golf, and the queen had hoped to go on a sightseeing tour of Mount Rokko National Park, but a rainstorm caused them to cancel their plans.

The royal couple arrived in Tokyo June 16 for a 10-day state visit.

**HOLLYWOOD, Calif. (AP)**—A woman Friday accused Lindsay Crosby, youngest son of crooner Bing Crosby, of knocking her off a bar stool in Hollywood.

Mrs. June May Plankins filed a complaint charging young Crosby with battery. She contended she was in a tavern celebrating her 46th birthday when Crosby, without saying a word, lifted her from the stool and dropped her on the floor.

Crosby denied the charge. He said he got involved in "sort of a free-for-all" when he tried to help the maitre with "some people who were giving him a bad time."

**SAN FRANCISCO (AP)**—Anatoly Dobrynin, Soviet ambassador to the United States, arrived in San Francisco Friday night to begin a two-week vacation in Pacific Coast and Rocky Mountain states. He planned a visit today to Yosemite National Park.

**Spy For Gen. Lee Dies**  
**EUSTIS, Fla. (AP)**—Mrs. Leon Sibley Haire, who said she was 116 years old and once a spy for Gen. Robert E. Lee, died Friday. There are no known survivors. Mrs. Haire said she was born in Richmond, Va., April 19, 1848, and lived two doors from Gen. Lee's family. She said she did undercover work for the general when both Confederate and Union troops were in the Richmond area.

# The Party Stalwarts

30 To 40% Know All Along How They Will Vote

Nearly half the American electorate decides early—on the basis of party—how it will vote. But some voters are undecided right down to the wire. Who are the deciders, the ones who often turn elections? Third of four articles.

By JOHN BARBOUR  
AP Science Writer

**ANN ARBOR, Mich. (AP)**—For the American voter there are 189 shopping days until Christmas — and just 52 fewer than that to pick a personal choice for president.

For some voters, it just isn't long enough.

Some will wait until the candidates emerge officially from the party conventions. Some will choose during the campaign. Perhaps one in 10 will wait until the last two weeks.

Between 30 and 40 per cent, most of them party stalwarts, know now—and will know all along.

But when current issues tend to pull a voter away from the party of his allegiance, he takes much longer to decide.

"People often say they vote for the man — because that seems the intelligent thing to do — but many of them are actually voting for the party," explained Prof. Angus Campbell of the Survey Research Center of the University of Michigan's Institute for Social Research.

The center's interviewers and analysts have been doing deep, nationwide studies of American voters in every national election since 1948, probing not only how he votes, but why.

From their figures, the American voter stacks up this way in noncritical times:

Twenty per cent are strong Democrats.

Twenty-five per cent are weak Democrats.

Twenty-five per cent are non-partisan, popularly called the independents.

Fifteen per cent are weak Republicans.

Fifteen per cent are strong Republicans.

In the off-year elections, when the races are largely local or congressional, interest is lowest. The strong party affiliates go to the polls in strength. But a great percentage of independents, and a lesser percentage of weak party supporters stay home.

Who then are the independents? The old textbook notion is that they are the true weighers of the issues, the judges, the arbiters of national conscience. But modern researchers have found that in practice they are mostly the disinterested, the uninformed, the "I don't care—no opinion" political creatures who do not always vote.

From them, SRC interviewers get a full range of answers—from the woman who said she had no personal preference, who knew the campaign was "a critical time" but would be glad when it was over, to the man who said:

"I just vote the way the guy on the corner tells me, cause he does me favors."

While largely the independents constitute a range of apathy between the two parties, they also yield an unusual one per cent who are likely the elite of the voting population. These few are among the best informed voters, but they salute neither party flag.

The independents began as a movement of enlightened voters weary of party promises and corruption, who wanted better government. They are dubbed the Mugwumps, but they bore little similarity to the independent voter of today.

The strong party voter, on

the other hand, is better informed as a group. But as much as he reads, hears and sees, he likely will not change his basic allegiance short of a major personal revolution.

His politics are hereditary, passed on from his parents in the conditioning of youth.

The Republican party rose from the stress of the Civil War as the nation's popular choice. By 1884 this was evening out, and in the years following the national alignment became basically regional, with the South and West aligned against the North and East.

From the turn of the century, the Republicans rose again in popularity, bowing only to Woodrow Wilson, but still holding the largest share of popular sentiment.

Then came the depression and the personal revolution for many American voters in the 1930s. The movement began with Franklin D. Roosevelt in 1932 and reached its height in 1936.

In the economically troubled nation, a distinct class division of the vote was created.

Then in the 1950s, the class distinction smoothed out in a turnabout of public sentiment to one man, Dwight D. Eisenhower. Yet while this popular Republican was winning near-record shares of the popular vote, his party had to settle for the old split that has favored the Democrats since the 1940s — 54 to 46.

In 1960, John F. Kennedy took the presidency with only 50 per cent of the popular vote. But his party held on to its 54 per cent

edge in other elections that year.

All of this indicates a sort of sophistication of the voter — a man who has learned to split his ticket to separate his party of choice from its prime candidate.

It isn't clear what this means to the "coattail theory" — the idea that a popular candidate will carry lesser candidates into office under the same flag.

The SRC has also found a peculiar role for the mass media — from newspapers to television — in the arena of politics. The SRC maintains that the voter looks to them for information to fortify beliefs he already holds, and that he is rarely convinced by arguments from the opposition.

There is also a politically homogenous nature to America now, which allows the voter to find his own kind of company, his own political persuasion wherever he lives or works.

"Everyone thinks of the suburbs as filled with bright, young executives who are all Republicans," says Campbell. "But it just isn't true."

People are always surprised, he said, when he tells them that one-third of the nation's union members vote Republican. On the other hand they are not surprised when he tells them that two-thirds vote Democratic.

There is scarcely any geographic slice of the American electorate that is all one thing or another. The American voter — wherever he lives, works, plays, keeps his own political solidarity, the privacy of his own personal voting booth.

## GOP Platform Drafters Eye Rights Issue Counterattack

**WASHINGTON (AP)**—Republican platform drafters are gathering ammunition to counter-attack on the civil rights issue — especially with what they say is evidence President Johnson formerly campaigned as an opponent of rights legislation.

Rep. Melvin R. Laird of Wisconsin, chairman of the Platform Committee, said in an interview it will have available documents dating from 1948 through 1960 showing Johnson taking positions on poll tax, fair employment laws and states' rights at variance with the spirit of the 1964 civil rights legislation.

Moreover, Laird said, the civil rights plank he expects the Republican National Convention to adopt next month will be at least as strong as the bill Congress is enacting.

Laird would not discuss platform plans in terms of individual candidates for the Republican nomination. But it was obvious the committee is bracing for a strong Democratic attack on this issue if Sen. Barry Goldwater of Arizona becomes the Republican nominee.

In his speech Thursday declaring he could not vote for the civil rights bill — he voted against it Friday night—Goldwater argued some provisions could lead to a police state and some fly in the face of the Constitution.

Laird said, however, he expects the platform to "commend Republicans in Congress for their support of effective civil rights legislation in keeping with the historical Republican position."

He said he does not "believe the Republican convention will nominate any candidate who will not carry out the pledges and positions of the party platform." He noted the schedule

## Fluno Appointed Chairman For UCPA Affiliate

Frank Fluno of East Liverpool has been appointed chairman of the annual fund campaign for the southern section of the county for the Columbiana County affiliate of the United Cerebral Palsy Association. Raymond Cole of Columbiana is northern section chairman.

The appointments were announced by Richard Brian, president, at the chapter's meeting Tuesday in Lisbon.

Two new directors were elected, Harrison Kyle of Salem and Walter Newton of Leetonia.

Other chairmen appointed by Brian were Walter Newton, New Waterford; Mrs. Philip Bush and Mrs. Fred Perkins, Damascus; Mrs. Charles Mundy, Salineville; Eugene Hall, Fredericktown; Negley and Rogers; Harrison Kyle and Rex Reich, Salem; Cole, Columbiana and East Palestine; Mrs. Hoyt Sexton, Lisbon; Fluno, West Point and Elkton; and Mrs. William Culp, Wellsville.

Brian said the center, presently caring for 28 children, has received parallel bars donated by the Junior Women's League of East Liverpool, and a wheelchair purchased for a 5-year old child by the Liverpool-Calcutta Ruritan Club.

The second annual dinner will be held in September.

The three principal causes of automobile accidents are running off the roadways, rear-end collisions, and making careless left turns.

### 3 Draw Fines At Wellsville

Three motorists were fined for traffic violations at hearings this morning before Mrs. Mary Rahter, acting mayor of Wellsville.

Robert Stewart of Toronto was fined \$15 for reckless operation and \$50 for escaping authorities. He was arrested June 7 at his home after fleeing Wellsville police on Clark Ave. He was told to wait while officers checked another car but he failed to obey the order.

Roland Rice of Wellsville R.D. 2 was fined \$15 for reckless operation and Walter Hicks, 229 W. 8th St., East Liverpool, was fined \$10 for passing at an intersection.

Ernest Ware of 4th and Buckeye Ave., Wellsville, was fined \$50 and costs and sentenced to five days in jail on a charge of disorderly conduct by intoxication. He was cited Friday night.

Walton Corbin of Salineville R.D. 1 was released from a charge of reckless operation for lack of evidence.

Several other motorists forfeited bonds when they failed to appear for hearings.

They included Robert Scott of Richmond R.D. 1, \$15 for reckless operation; B. A. Powell of Mingo Junction, \$15 for driving left of center; Clarence D. Kootz of Moundsville, \$25 for reckless operation; William Cornell of East Liverpool, \$25 for reckless operation; Uiril Scott Shannon, 713 Burford St., \$33.70 for no operator's license and \$15 for speeding; Thomas Scott, 2503 St. Clair Ave., \$5 for driving the wrong way on a one-way street, and Juanita Dawson of Steubenville, \$15 for speeding.

### Two Men Killed, One Hospitalized In Fiery Crash

CHARDON, Ohio (AP)—Two men lost their lives and another was hospitalized in a fiery car crash on Ohio 87 near Burton Village in Geauga County Friday night.

The sheriff's office said the car bearing the three men left the roadway, slammed into a power pole, shearing it off at the base and felling electric lines across the overturned auto. The car burst into flames after a small explosion authorities believe resulted from a short circuit in the auto's ignition wiring.

Killed was Robert L. Broyles, 33, of Chardon. The other dead man was badly burned and efforts were being made to identify him.

James Broyles, 32-year-old brother of one victim and driver of the car, was thrown part way out of the car. Broyles, who lives at Rd 5, Chardon, was reported in fair condition at Geauga Community Hospital with face and leg injuries.

A truck driver and a motorist stopped and rescued James Broyles from the burning car shortly before it exploded.

### Lone Candidate Fails To File Vote Expense

An East Liverpool Democrat, who sought a precinct committee post, was the only candidate at the May 5 primaries who failed to file a sworn statement of expenses prior to the deadline Friday afternoon, the County Election Board said today.

James V. Flasco, 1837 Idaho Ave., failed to file the statement of expenses in seeking the central committeeman's post in Precinct H of the Fourth Ward, Frank R. O'Hanlon, clerk, said.

Flasco, former city Democratic chairman and former candidate for City Council, will be barred under state law from seeking an elective office for five years, O'Hanlon said. His name will be reported to Secretary of State Ted W. Brown's office, he added.

### Baden Resident Dies In Zelenople Crash

ZELIENOPLE — A station wagon and a pickup truck crashed head-on near the intersection of Routes 508 and 288 near Zelenople Friday, killing the driver of the station wagon and injuring a passenger in the truck.

James Maxwell, 66, of Baden died a short time after the accident, Butler County Coroner J. Clinton Atwell said.

Paul Ketter, 32, of Pittsburgh, was treated and released from Ellwood City General Hospital. The truck driver, Frank Martellotti, 28, and another truck passenger, Jack Lehrman, 31, both of Pittsburgh, escaped injury.

### Speakers Listed For Panel On 'Community Colleges'

Plans have been completed for the public panel discussion on "Community Colleges," sponsored by the Western Beaver County Area Development Committee.

Various chairmen and committees were announced to handle arrangements.

The panel discussion, open to all Beaver County residents, will be held Wednesday at 8 p.m. at Western Beaver County High School in Industry. The school is on the Ohio View-Fairview Rd.

Panelists will be J. W. Nipert, United Steelworkers District 20 representative; James Ross, Beaver County commissioner; Dr. William H. Russell, dean of Geneva College; Dr. Milton J. Eger of Aliquippa, regional director of District II of the Pennsylvania School Board Association; and Raymond F. Crawford, personnel director for McIntosh - Hemphill, division of the E. W. Bliss Co. of Pittsburgh and Midland.

Ross, Dr. Russell and Dr. Eger are advisors to the county Community College and Area Technical School Committee, which is studying possibilities of such a college and school for Beaver County. The panel will discuss various aspects of community colleges.

Dr. Robert B. Spooner, co-director of the scientific and research advisory group of the Regional Industrial Development Corp. (RIDC) of Pittsburgh will be the moderator.

### Coast Guard Unit To Provide Pleasure Boat Inspections

In conjunction with observance of Safe Boating Week June 28-July 4, Flotilla 77 of the Coast Guard Auxiliary will conduct inspections of boats of local owners June 27-28 on the Ohio River.

The inspections are slated Saturday, June 27 from 1 to 3 p.m. at the Broadway dock near the Chester Bridge, and Sunday, June 28 at 1:30 p.m. at the John F. Kennedy Memorial Park at the site of abandoned Dam 8 at Newell.

Each craft passing the examination will be issued a decal and a certificate declaring it is "safely equipped."

The flotilla said some inquiries have been made to members

### Ohio Cities Hit Speed Limit On Through Streets

COLUMBUS, Ohio (AP)—At least a half-dozen cities have come in already to ask relief from the 35 miles per hour speed limit on "through" residential streets, state highway officials say.

A number of communities contend that 35 m.p.h. is too fast.

The situation stems from an Ohio Supreme Court decision, announced April 22, which said 35 m.p.h. is lawful for traffic on such "through" residential streets in municipalities, posted lower speed limits to the contrary.

P.E. Masheter, state highway director, said information is being gathered on the effect on various communities. He said it's likely that the legislature will be asked to clarify the law.

The director can authorize lower speed limits on such streets if local officials prove the need.

Through streets generally are considered to be those for which traffic on intersecting streets must wait.

### Del. Tsapis Advised Golf 'Not Production'

When you are swinging a golf club you may be digging divots—but that ain't hay, so the chance for golf courses getting West Virginia gasoline tax refunds has been ruled out by the attorney general's office at Charleston.

In an opinion requested by Del. Callie Tsapis, D-Hancock, Asst. Atty. Gen. J. Patrick Bower said golf courses do not qualify for the 7-cent-per-gallon gas tax refund which is allowed under certain conditions.

Bower noted that to qualify for the refund, the gasoline must be used off the highways and in "the production of natural resources." He said a golf course "is not the production of natural resources."

### Prison Term Given Man With Appeal Due

LISBON — Common Pleas Judge Joel H. Sharp Friday sentenced John Pounds, 33, of Alliance to 10-25 years at the Ohio State Penitentiary on armed robbery and raised his bond from \$3,000 to \$5,000 for stay of execution of sentence pending an appeal.

Pounds had requested a new trial, but it was denied and his counsel said it will appeal to the 7th district appellate court. Unless he can make the bond, he will be taken to the penitentiary meanwhile.

He was convicted with an accomplice in the holdup of the Lippitt Linoleum Store near Salem in February.

### Laurine Wins City Woman With State 32 Years Retires

The recount of May 12 primary ballots cast in Butler District was completed by Hancock County officials Friday night, confirming Herman Laurine of Weirton as winner of the Democratic nomination as constable over Patsy Cortez, incumbent.

William C. Graham, county commissioner, said Laurine was certified officially as the winner over Cortez by 90 or more votes.

Graham's lead over Alvin B. Clutter of Chester for the Democratic nomination as county commissioner dwindled to about 35 votes, lowest since the recount started.

After completing the recount of Butler District, commissioners recounted ballots cast in Precinct 12 in Clay District.

The recount will continue Monday morning at the Courthouse. A recount in Clay District was asked in the race for the Democratic nomination as justice of the peace between Winfred Martin and John Thayer. Thayer had defeated Martin by 11 votes after the official canvass.

### Ex-City Resident Gets Ph.D. Degree

Josiah Donald Thompson Jr., 29, and son of Mr. and Mrs. J. Donald Thompson of Park Blvd., was awarded a doctor of philosophy degree from Yale University during commencement exercises Monday.

Married to the former Nancy Willis of St. Louis, Mo., Thompson received his bachelor degree in 1957. He then spent three years in the Navy, engaged in underwater demolition.

After receiving his master's degree in philosophy in 1962, Thompson studied at Oxford University in England, in Vienna, Austria, and in Copenhagen, Denmark, in preparation for his doctor's degree. He is now teaching in the philosophy department at Yale.

Mr. and Mrs. Thompson have returned after attending the graduation.

### Officer Hurt Slightly In Fight With Soldier

A police officer was hurt slightly in a scuffle early this morning while attempting to take an AWOL soldier into custody on a warrant charging him with cashing bad checks.

Lt. William E. McDaniel, 34, of 407 W. 4th St. was treated at City Hospital for a laceration of the left knee after the battle about 2:23 a.m.

Patrolman R. J. Brookes said the suspect, now being held in City Jail, resisted arrest when served with the warrant. In the struggle between the suspect, Lt. McDaniel and Patrolmen Brookes and Howard Frontz, Lt. McDaniel suffered the laceration when shoved into a window on the west side of a W. 4th St. house near the officer's home.

### Probation Given To 2 In County Theft Cases

LISBON — Two indicted by the January Grand Jury were placed on probation Friday afternoon by Common Pleas Judge Raymond S. Buzzard after hearings.

Arthur Zaccane, 19, of Youngstown received five years probation for the theft of tool box and tools from William Toland of Columbiana Sept. 22, 1963. He had pleaded guilty at arraignment.

Lovell Coleman, 23, of Beaver was placed on three years probation for burglary at the Good-year Service Store in East Liverpool Oct. 10, 1963. He was found guilty by a jury March 3. He pleaded guilty to attempted burglary Oct. 9 at Adkins Appliance Store, also in East Liverpool.

### Pair Injured In Road Crash

A Glenmoor couple was injured when their pickup truck collided with a station wagon ahead that had blown a tire Friday night at 10:35 on Stewart's Hill near the Pennsylvania state line, Hancock County sheriff's deputies reported.

Lawrence Brewer, 45, and his wife, Mrs. Juanita Brewer, 44, of Glenmoor R.D. 1, were treated at City Hospital after the mishap on Route 30 east of Chester.

Deputies reconstructed the mishap this way: A 1957 model station wagon driven by William L. Reed, 146 Montana Ave., Chester pulled from the parking lot of the Half-Moon Lounge and was heading west when the right rear tire blew out.

The blowout threw the station wagon off the right side of the road into the east-bound lane of Route 30.

The Brewers came over the crest of Stewart's Hill about 100 feet away, heading west. Brewer spotted the station wagon in the east-bound lane ahead and lost control attempting to avoid the collision, deputies said.

Brewer suffered abrasions of the right arm and contusions of

# Jacobs Fires 64 To Lead Palmer By One In Open

## Phils Sweep Mets, Cards Top Giants; Orioles Win 2

### Final 36 Holes To Unfold Today

By JIM BECKER  
WASHINGTON (AP)—Where was Tommy Jacobs at 3 a.m.?

Sleeping soundly? Or pacing the floor?

Dimpled Tommy tore up the Congressional Country Club course—the vaunted monster—with a record-tying 64 Friday and found himself one stroke in front of Arnold Palmer, the golfing colossus, at the halfway point of the U.S. Open.

That earned Jacobs, a handsome 29-year-old with wavy brown hair and a shy smile, a head-to-head playing spot with Palmer down the pressure-cooker stretch of 36 final holes today.

Jacobs had 136, four under par. Palmer, bidding for the grand slam of golf, had 137. He wants this title so bad he would disturb anybody's sleep.

Also, this Open is the 50th anniversary of the first one that Walter Hagen—the Palmer of his day—won in 1914, and had watchers wondering if Jacobs might suffer the fate of some of Hagen's opponents.

There was the night, for example, when Hagen was still entertaining his admirers at 3 a.m., and was reminded that his opponent of the day was safely in bed.

"Yeah," the Haig agreed, "but he ain't sleeping."

If young Jacobs managed to nod off, visions of his dream round would settle his nerves. Shooting 64 in the U.S. Open—it has only been done once before—is a lot different than shooting 64 in the weekly what-chamacallit open.

"It would have been a 58 on any other golf course," said veteran E. J. (Dutch) Harrison, who played with Jacobs. "I still don't believe it. This course cannot be played in 64."

Jacobs capped the round with a putt that traveled a measured 60 feet, 5 inches into the cup for a birdie at the 18th. Harrison had some comment about that, too.

"Don't tell me that putt was only 60 feet," he said. "I'd like to buy some real estate from the man who measured it."

Jacobs had 72 the first round, while Palmer added a 69 to his opening 68. So far there have been four rounds under par 70—and Palmer has two of them.

No other player was under par 140 for the 7,053-yard course, longest ever used in the Open.

The field was cut to the low 50 scorers and ties. It took 150 to make it.

Bill Collins, making a comeback after a back operation, added a 71 to his opening 70 for 141 and third place.

Big Jack Nicklaus, the early co-favorite sputtered to a 73 and was at 145.

### Travelers Ends 'Drought' On Little League Victory

Travelers Hotel, which flew a Little League pennant a few seasons back, has had some tough sledding on the diamond this year.

The entry snapped a 12-game losing streak Friday in turning back Vernon Dell Dairy, 9-5, behind pitcher Rick Lockhart.

Travelers had gone winless in the second half of play before coming through with the initial victory yesterday.

Lockhart gave up eight hits across six innings, and struck out five. Don Smith slammed two doubles, and Bob Webber doubled and singled to pace Travelers' six-hit attack. John Cunningham had a double and two singles for Vernon Dell and Henderson was the losing pitcher.

In other games, Golden Star

got nine hits to beat Veteran Plate Glass, 7-3, and Burdicks went on a hitting spree to roll over Chester Legion, 7-2.

Jim Massey and Mike Lockhart shared mound duty for Golden Star. Massey hit a triple and double, Lockhart a double and single, and Ken Smith a double and single for the winners. Joe Walker had two doubles and a single, and Steve Davis a double for Vernon Dell. Randy McVay was the loser.

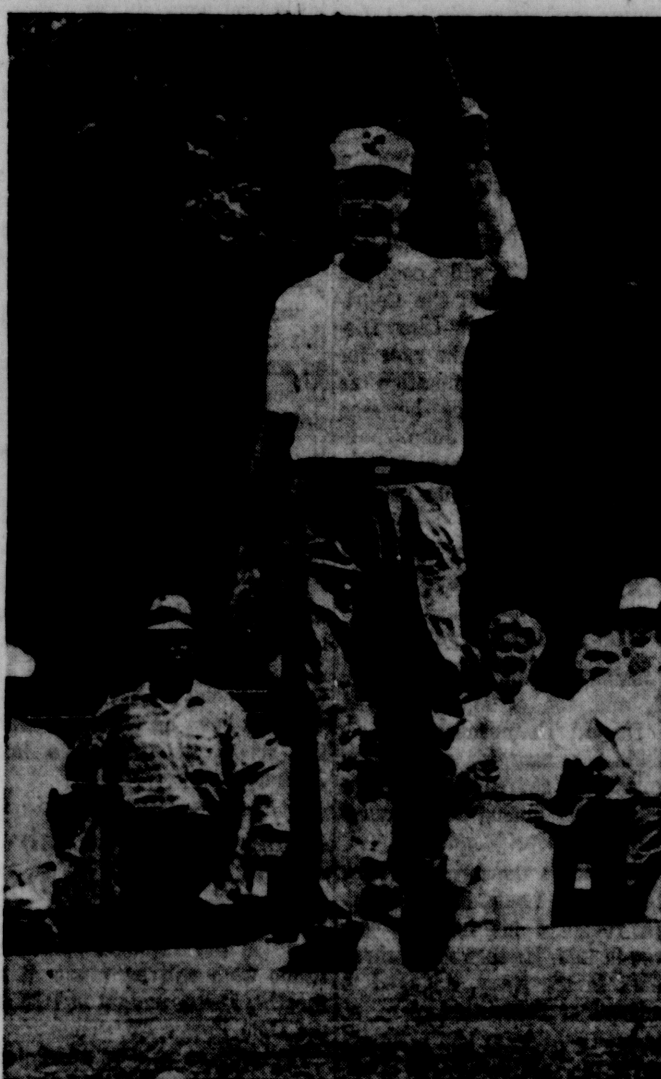

Douglas picked up the victory for Burdicks, but needed relief in the fourth by Heitzler. Mickey Lowry had two singles for Burdicks, while Steve Staley, Bruce Diddle and Rocky McKinnon each doubled and singled and Cornell socked a long triple. Badgley was the losing pitcher.

### Loop Leaders Beat Irondale

Retaining command of first place in the Tri-County League, Wellsville rolled to an 11-2 victory over loose-fielding Irondale Friday at Central Park in Wellsville.

Bill Murray of Wellsville scattered five hits, fanned nine and walked two in going the distance for the win. Roy Scott was behind the plate.

Smallwood started for Irondale and gave way in the fifth to Bob Mills. Smallwood walked one and hit four Wellsville batters.

Murray doubled in two runs to lead Wellsville at the plate. Irondale got its only runs in the seventh inning when first-sacker Gary Frampton belted a home run down the left field line with Joe Ulrich aboard.

Wellsville, with a 9-2 record, will visit Jewett June 27.

### Javier's Hot Bat Topples Frisco Again

By MURRAY CHASS  
Associated Press Sports Writer  
Julian Javier, St. Louis' weak-hitting second baseman, is the Philadelphia Phillies' newest batting hero.

While the National League-leading Phillies were sweeping a doubleheader in New York Friday night, Javier was in St. Louis batting down second-place San Francisco 3-1 for the second straight night. The results gave the Phillies the biggest lead of the season—2½ games.

Javier clouted a two-run homer in the seventh inning, breaking a 1-1 tie. The night before he drove in five runs with a homer and a double in the Cardinals' 7-6 victory over the Giants.

Before the 27-year-old Javier started his one-man attack against the Giants, they were tied with the Phillies for first.

And before that, Javier had been knocked in only 23 runs and hit six homers in 58 games. Now he has 30 RBI with eight home runs and a .239 average.

Looked upon as the fourth man in the Cardinals' All-Star infield, Javier has been at least 50 per cent responsible for getting St. Louis out of its sagging slump, which consisted of a five-game losing streak and 17 losses in 23 games.

The Cardinals now are working on another streak. This one consists of four victories.

The Phillies have a three-game winning streak with their 2-1 and 7-2 triumphs over the Mets. Elsewhere in the NL, Cincinnati trampled Los Angeles 11-1 and Houston outlasted Milwaukee 9-7. Rain washed out Chicago at Pittsburgh.

Javier's homer off Ron Herbel followed Bob Skinner's single. The hit helped Bob Gibson to his sixth victory against four defeats although he needed relief help from Ron Taylor in the ninth. Jim Davenport homered off Gibson in the second.

Ray Culp pitched a five-hitter and Roy Sievers drove in three runs for the Phillies in the second game. Culp, winning his third game in eight decisions, hurled his first complete game of the season.

Sievers slammed a two-run homer in the four-run fourth and a run-scoring double in the sixth. Ed Kranepool hit a two-run homer in the third for the Mets.

Johnny Callison won the opener with a two-run homer in the sixth. Art Mahaffey picked up his seventh triumph against two losses.

Johnny Edwards led the Cincinnati attack with four RBI on a double and two singles. Vada Pinson also had three hits, including a home run, while Leo Cardenas homered for the Reds.

Jim Maloney struck out 11 Dodgers and gave up five hits before leaving for a pinch hitter in the seventh.

The Colts, down 5-3, scored six runs in the eighth inning and held on against the Braves. Joe Gaines, acquired from Baltimore last Monday, ignited the outburst with a home run. Lee Maye and Frank Bolling homered for Milwaukee.

### Appliance Nine Wins Minor Loop Division Crown

Tri-State Appliance swept the first half championship of the National Division of the Little Minor League Friday with a 5-2 triumph over Taylor, Smith & Taylor Co.

J. Whittaker fired a one-hitter and fanned 13 batters for Tri-State. At the plate, he hit a double and single. Silva was the losing pitcher, and Fletcher had a double for T. S. & T.

Hancock County Federal Savings & Loan Association trimmed T-K Roofing, 18-2, with an 11-run uprising in the first inning. Glass and Gessard had home runs for the winners.

Madish and Aken teamed up for mound duty to lead Pottery Savings & Loan Co. over First National Bank, 7-3. Aken and R. Jackson hit doubles. J. Renner turned in an unassisted double play.

Roger's Drive-in wrecked M. & A. Motors, 26-2, behind a 26 hit attack. Jim Cheeks fanned eight and allowed M. & A. only three hits. Don Plant with five hits in six trips, and Fitch and Manley with four hits each led the winners. Smith, Henselman and Henson had singles for the losers.

### Forzano's 3 Hits Lead Colonial In Slow Pitch Win

Colonial Grill posted an 11-3 victory in the Slow Pitch League Friday night over Dan-D-Bar.

Fran (Golden Arm) Wise was the winning hurler, and outfielder Dick Forzano led the attack with three hits for Colonial. Jack Canton was the losing pitcher.

In another game, Dawson-Hammond edged Esquire Barbers, 6-5, in an eight-inning struggle. Ralph Turner and Bob Klubert had two hits and Lorin Howard doubled for the losers.

### Miller Saves Pair; Angels Edge Indians

By MIKE RATHET  
Associated Press Sports Writer  
Stu (The Junk Man) Miller has been out collecting again.

Stingy Stu went foraging against Boston Friday night and salvaged two more games for Baltimore, preserving 2-1 and 6-5 triumphs over the Red Sox that boosted the Orioles back into first place in the American League.

Baltimore now has been involved in 20 one-run ball games and won 18—an astonishing .900 record in the squeakers. And, at the tail-end of most of them, Miller has lumbered out of the bullpen with his assortment of easy-looking, impossible-to-hit pitches.

He made his 25th and 26th appearances of the season against the Red Sox and when the night was over, he had been involved in his 14th and 15th one-run games. The Orioles have won 13 of those and Miller has officially been credited with 11 saves.

A 36-year-old right-hander who set a league record by appearing in 71 games last season, Miller has an over-all earned run average of 1.54 this year. In those 15 squeakers, however, he has been somewhat stingier, allowing just one run.

While Miller was adding to his collection, former Baltimore reliever Wes Stock added to his amazing record, posting his 11th victory without a loss since July 12, 1962.

Acquired by Kansas City in a deal for catcher Charley Lau last Sunday, Stock stroked his first major league hit in a career that started in 1961 and received credit for a 5-4 victory over Washington. It was the A's seventh victory in nine games under new Manager Mel McGaha.

Elsewhere in the AL, Harmon Killebrew's 21st homer was one of four hit by the Minnesota Twins in a 7-6 victory over Detroit and Bobby Knoop singled in the winning run in the Los Angeles Angels' 2-1 triumph over Cleveland.

The New York Yankees and Chicago were rained out by the second-place White Sox dropping one game behind the Orioles.

In the National League, Philadelphia defeated the New York Mets 2-1 and 7-2. St. Louis defeated San Francisco 3-1, Cincinnati crushed the Los Angeles Dodgers 11-1 and Houston outslugged Milwaukee 9-7. Chicago and Pittsburgh were rained out.

The Orioles scored both their runs in the opener following an error by Ed Bressoud in the fifth. John Orsino's sacrifice fly and Boog Powell's single brought the runs in. Miller saved this one for Robin Roberts, 5-4.

Dick Brown supplied the firepower in the nightcap, hitting a two-run homer before capping a three-run, sixth-inning uprising with a run-scoring single. Miller saved this one for Chuck Estrada, 2-1. Dick Stuart and Tony Conigliaro homered for the Red Sox.

Rocky Colavito did most of the damage for the A's. In the top of the sixth, he threw Washington's Mike Brumley out at home plate, then came up with Kansas City trailing 3-2 in the bottom of the inning and hit a two-run homer, his 15th.

Stock wound up the three-run rally with a run-producing single, his first hit in 29 at-bats in the majors.

The Twins, who failed to hit a homer in losing a doubleheader at Cleveland Wednesday, brought their total to 96 in 62 games with Killebrew, Bob Allison, Tony Oliva and Zoilo Versalles connecting.

Gerry Arrigo got the victory in relief, bringing his record to 4-1 despite being tagged for a homer by Bill Freehan.

## Farm To Table

### Survey Set On Food Marketing

WASHINGTON (AP)—In the Senate today, a survey of the nation's food marketing system.

FARM TO TABLE: The Senate has cleared the way for a searching government inquiry into the nation's food marketing system.

By agreeing Friday to revisions the House made in an authorizing resolution, the Senate set the stage for naming of a commission. Five senators and five representatives will serve with five public members appointed by President Johnson.

"We expect it to look into price-rigging, profits, possible antitrust loopholes and the small returns to many of our farmers, ranchers and growers," said Sen. Warren G. Magnuson, D-Wash. Congress voted \$1.5 million for the job.

CALL TO ARMS: The Defense Department says higher-than-expected enlistments and reenlistments are responsible for the lowest draft call in more than three years — 3,300 men in August.

The July call was 8,000. In April 1961, the draft call dropped to 1,500 men but it shot up to 25,000 in September because of the Berlin crisis.

HEALTH CARE: The House Ways and Means Committee resumes closed sessions Monday on plans to expand health care for the aged.

The committee is not expected to approve President Johnson's proposal for a hospitalization program under Social Security.

BLACK: Fred B. Black Jr., Washington public relations man and business associate of ex-Senate aide Bobby Baker, was sentenced Friday to 15 months in jail and fined \$10,000 for evading \$91,000 in income taxes.

U.S. District Court Judge John J. Sirica sentenced Black after turning down defense motions for acquittal or a new trial.

Black was freed on \$2,500 bond after his attorney, Hans A. Nathan, said he would appeal within 10 days to the U.S. Court of Appeals.

PROGRAM: The Senate will begin on Monday to try to cut down the backlog of work accumulated during the 83-day civil rights debate.

Either on Monday or later in the week, Democratic Leader Mike Mansfield said on Friday night, it will take up the only two appropriations bills approved in committee and ready for floor debate — the Interior and Treasury-Post Office measures.

The House has passed 11 of the 12 money bills needed to run the government in the fiscal year beginning July 1, but none has cleared the Senate.

Clinic were Thomas Kleen, Paul G. Geiger and Jackie Wolfe of East Palestine.

Richard Galloway of East Liverpool has been discharged from Alliance City Hospital.

Clarence A. Garren, 2144 Crawford Ave., former resident of Westfield Rd., entered the Oakland Veterans Hospital at Pittsburgh Friday afternoon.

Samuel Snow of Industry and Ethel Kashi and Augustine Matteo of Midland were released from the Rochester General Hospital Friday.

Permit Bid Rejected

LISBON — The State Liquor Control Board said today at Columbus it has rejected an application from Kenneth and Goldie Dunn of Hanoverton R.D. 1, who sought a new C-1 permit for an operation at Guilford Lake. The board said it found the two were not residents of Ohio for a year prior to filing the application and therefore are not qualified. A C-1 permit authorizes sale of 3.2 beer for carry-out.

Roll halved chicken livers in seasoned flour and use them as a garnish for a puffy omelet served with tomato sauce.

## Board To Eye Hancock Bids

Bids on equipment for two central kitchens, in which food for the first hot lunch programs in the Hancock County school system will be prepared, will be opened by the Board of Education Tuesday night at 8 in New Cumberland Junior High School.

The overall cost has been estimated at roughly \$200,000.

The central kitchens were provided at the Chester Primary School and Weir High School in Weirton when the school buildings were erected in the county's \$5 million expansion program.

When the equipment is installed, the central kitchen at Chester is to provide hot lunches for the school buildings in the North end of the county, including Oak Glen High School.

The other kitchen in Weirton will serve all of Weirton area.

## Present Picture Seen Bleak

## Cuba Expects To Solve Farm Problems By 1966

HAVANA (AP)—Cuba's land reform chief draws a bleak picture of farm production under the Castro regime, but he claims most pressing agricultural problems will be solved by 1966.

This will entail major changes in the organization of agriculture introduced after Fidel Castro came to power in 1959 and partial mechanization of the sugar harvest with 100 Soviet cane cutters.

Carlos Rafael Rodriguez, president of the National Agrarian Reform Institute, revealed contemplated changes in farm methods — and the reasons for them — in an interview.

In two years, Rodriguez said, with nagging problems out of the way, "we'll be in full development which will enable us to achieve our goal of a 10-million-ton sugar crop in 1970."

Rodriguez, a member of the Cuban Communist hierarchy long before Castro won power, declined to comment on the outlook for the current sugar harvest. Castro has classified production top secret.

Western and Eastern European sources here speculate the crop will be somewhat above last year's reported 3.8 million tons. U.S. forecasters in Washington have predicted a drop to 3.3 million tons, less than half the 1960-61 output.

## USW Will Seek Ouster Of Agent At Armco Corp.

MIDDLETOWN, Ohio (AP)—The United Steelworkers Union began planning today—for the fifth time—how to oust an independent union as collective bargaining agent for 6,000 employees of the Armco Steel Corp.

"Most definitely we will seek another election. We'll never give up," said Al Whitehouse, district director of the steelworkers, Friday after the Armco Employees Independent Federation defeated the steelworkers, 3,954 to 1,256.

A total of 5,471 ballots were cast in two days of voting. National Labor Relations board supervised voting at Armco's Middletown and Hamilton plants.

"For the second time in just two years, Armco workers have shown that they prefer independent unionism over the kind of representation promised by the United Steelworkers," declared James Lafayette, president of the federation.

The steelworkers also were rejected in collective bargaining elections in 1944, 1947 and 1962, and Whitehouse said bitterly:

"The results of the election prove that it's awfully hard, virtually impossible, to beat a powerful company and a firmly entrenched company union, all of whom do everything on their power to beat us."

## Lancaster Fire Loss

## Placed At \$100,000

LANCASTER, Ohio (AP)—Inventories are expected to push estimated fire damage to more than \$100,000 for one gutted downtown building and two others scarred by smoke and water.

The fire broke out Friday night, apparently on the roof of the building housing the "Lucky Mart" discount store. All of the city's firefighting equipment was called to the scene and prevented flames from spreading to the adjoining Hocking Valley National Bank and the Hickie Department Store.

There were no injuries.

The combination of firefighting equipment and the crowd of 1,000 created a massive traffic jam on U. S. 22, which runs through downtown and U. S. 33, which intersection a few blocks west of the area.

## Granite Eagles Eyed

## By Souvenir Hunters

NEW YORK (AP)—Souvenir hunters have made a special target of Pennsylvania Station—especially its 14 granite eagles—each more than five feet tall and weighing nearly three tons.

Private citizens, colleges, high schools, museums, government institutions, businesses and other railroads have written the Pennsylvania Railroad asking for them.

The railroad said Friday it answers that the eagles are reserved for a proposed colonnade at Battery Park honoring former President Dwight D. Eisenhower. If that doesn't go through, requests by public institutions will be considered.

A time capsule, marked by a granite monument, was buried at the New York World's Fair in 1939. A second will be buried at the same site at the close of the current World's Fair in October 1965.

A thorough overhaul of Cuba's farming organization is planned by the end of this year, Rodriguez said. An immediate objective will be decentralization of day-to-day control.

"We have found it is not possible to run agriculture from Havana," said Rodriguez.

Already under way is the consolidation of some 800 state farms into 60 production units of 250,000 to 500,000 acres each.

The consolidated units will specialize in particular crops. Rodriguez said their managers will have autonomy in the daily handling of their regions but will operate under plans and goals prepared at the national level.

Rodriguez revealed these 1963 production figures which indicated things have not been going well down on the farms:

Rice — 408 million pounds compared with 670.7 million in 1960.

Potatoes—171.6 million pounds compared with 211.8 millions in 1960.

Tomatoes — 184.8 million pounds against 192.5 million in 1960.

Cotton — 21.4 million pounds compared with 30.4 million in 1961.

## LEGAL NOTICES

ORDINANCE NUMBER 17, 1964. AN ORDINANCE DETERMINING THE COST AND EXPENSE FOR THE YEAR 1964-65 FOR THE IMPROVEMENT OF CERTAIN DESIGNATED STREETS IN THE CITY OF EAST LIVERPOOL, OHIO. BE IT ORDAINED BY THE COUNCIL OF THE CITY OF EAST LIVERPOOL, OHIO, that the cost and expense for the improvement of certain designated streets in the City of East Liverpool, Ohio, for the year 1964-65, be and the same is hereby determined to be as follows:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF EAST LIVERPOOL, OHIO, that the cost and expense for the improvement of certain designated streets in the City of East Liverpool, Ohio, for the year 1964-65, be and the same is hereby determined to be as follows:

SECTION 1. That in connection with the levying of special assessments for the year 1964-65, the City of East Liverpool, Ohio, be and the same is hereby determined to be as follows:

SECTION 2. That the assessment against each lot or parcel of land shall be payable in cash within 30 days after July 12, 1964, and all assessments not so paid shall be deemed to be in default and the same shall be certified by the Clerk of this Council to the City Auditor for collection.

SECTION 3. That the Clerk of this Council shall forthwith compute the assessments for the year 1964-65 and shall then place the same on file with this Council and thereafter cause a notice of the passage of this Ordinance and the filing of such 1964-65 assessments to be published once in a newspaper of general circulation in this City and to continue on file in his office said list of assessments for the year 1964-65.

SECTION 4. That the Clerk of the Council is hereby directed to deliver a certified copy of this Ordinance to the County Auditor within twenty (20) days after its passage.

SECTION 5. That this Ordinance is hereby declared to be an emergency measure necessary for the immediate preservation of the public peace, health and safety and the further reason that it is immediately necessary to make payable the assessments herein determined in order that the assessed property owners will be afforded the full 30 days from and after July 12, 1964, for the paying thereof as contemplated by the Ordinance.

SECTION 6. That the City Auditor is hereby directed to cause the assessments herein determined to be collected by the County Auditor; wherefore, this Ordinance shall take effect and be in force from and immediately after its passage and approval by the Mayor.

forth for the transportation of natural gas over, through and across a tract of land containing approximately acres, owned by the City of East Liverpool, Ohio, and located in the City of East Liverpool, Columbiana County, Ohio, bounded and described as follows:

On the north by East Second St. City of East Liverpool, Ohio,

On the east by Other Lands of City of East Liverpool, Ohio,

On the south by Ohio River, On the west by Pennsylvania Railroad.

Said 12-inch pipeline shall be laid along the route shown on Company's Drawing No. 4-556.

Together with the right of ingress and egress to and from the same, reserving to the City of East Liverpool the full use and enjoyment of said premises except for the rights herein granted to said Company.

In the event said 12-inch pipeline interferes with City's use of the aforesaid land for public purposes, the Company shall, upon receipt of written request from City, raise or lower said pipeline, or relocate said line from the point where it leaves the Ohio River to another location, on the City's property as mutually agreed upon by the parties hereto. Should the parties be unable to agree upon the new location for said line, said location shall be determined by a panel of arbitrators composed of three (3) disinterested persons, one of whom the City and the Company shall appoint one each and the two engineers so appointed shall appoint the third, the award of two of whom shall be final and a condition precedent to the institution of any legal proceedings, any arbitration and/or relocation is to be paid solely by the Company.

The rights, privileges and terms hereby shall extend to any and all successors and assigns of the City and the Company, their respective successors and assigns.

SECTION 2. That the above described premises which said pipeline is to occupy are not now needed for any municipal purpose.

SECTION 3. That this Ordinance shall take effect and be in force from and after the earliest date provided by law.

OFF THE RECORD

How Can I?

By ANNE ASHLEY

**Q. How can I remove chocolate or cocoa stains from unwashable fabrics?**  
A. First, dissolve the grease in the stain by sponging it with carbon tetrachloride. Dry thoroughly, then sponge with warm water, and dust with powdered pepsin. Work the powder into the cloth carefully, let it remain a half-hour or longer, then sponge off with water.

**Q. Please suggest an easy and effective way to replace a short length of leaking water pipe at a distance from a union.**  
A. After cutting out the defective section with a hacksaw, make a coupling with auto radiator hose. Such hose comes in sizes to fit most home water pipes, and even if slightly oversized, it can be drawn tightly antiseptic to the spot.

**Q. How can I make my own ink eradicator?**  
A. Whip up a solution of one part of chlorinated laundry bleach and 10 parts of water. Keep this in an old iodine or mercurchrome bottle with a rubber stopper and with a glass rod as an applicator. Use it along with a blotter, just as with a commercial eradicator. Incidentally, this doesn't work on typewriter ink.

**Q. Is there any way I can make for more painless removal of splinters from the skin?**  
A. Press an ice cube on the spot for at least 30 seconds, and this will serve to numb the area, after which you can remove the splinter with a sterilized needle. Be sure then to apply antiseptic to the spot.

Junior Editors Quiz on AMERICAN FLAG

**QUESTION:** Why was Betsy Ross picked to make the first United States flag?

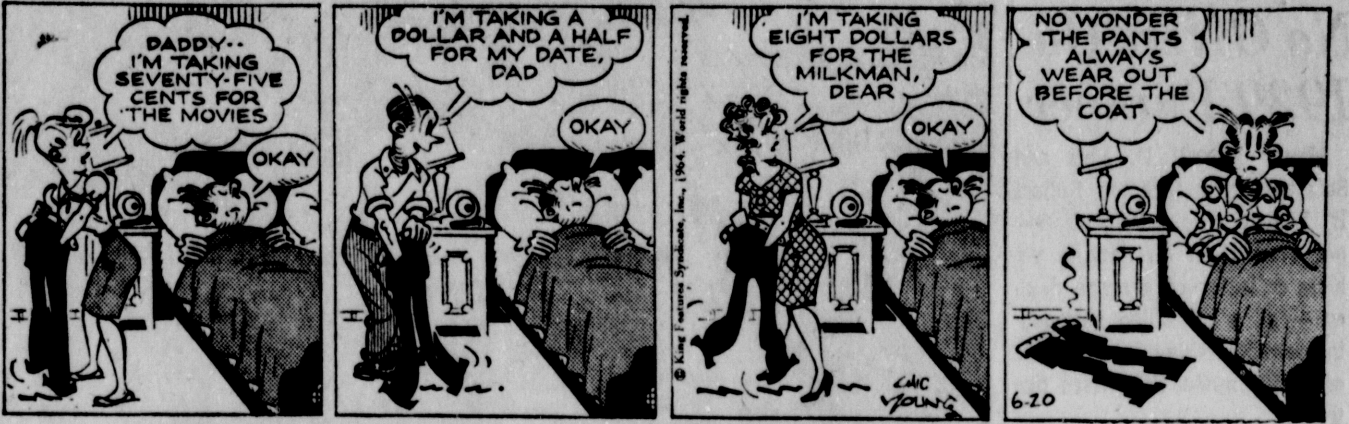

**ANSWER:** We should remember that at first the American revolutionaries fought under a number of different flags. The one referred to in the question was authorized by Congress June 14, 1777, and has been used ever since, with only slight changes in design. It is not definitely known however, whether Betsy Ross actually made the first flag of this kind. The legend is based on sworn statements by her descendants and may be true, but some historians doubt it.

According to the legend, General Washington and two others called at Mrs. Ross' upholstery shop in Philadelphia with a design for the new flag. Mrs. Ross apparently had been chosen because she was a well-known and capable seamstress, also perhaps, because her husband's uncle, George Ross, had been one of the signers of the Declaration of Independence. The first design had six-pointed stars. Washington thought five-pointed ones would look better but would be too hard to make. Then, as the story goes, Mrs. Ross showed the General how a five-pointed star could be made with a single clip of the scissors. Thus the five-pointed star was decided upon and Betsy Ross made the flag.

**FOR YOU TO DO:** Get a perfectly square piece of paper, fold in the middle (1). Holding the fold up, carry right hand corner down to a point two thirds down left hand edge and press flat (2). Fold upper left corner down (3) and then left hand side over on right (4). Now draw pencil line where you see dotted line and clip right across on line. Unfold and you'll have a fine five-pointed star.

## City Receives No Offers On 1929 Pumper

Mayor Merrill D. Hall and Safety-Service Director Robert E. Vodrey received no offers—not even from an antique vehicle collector or a scrap dealer—at a scheduled bid-opening session Friday noon for sale of a 1929 model Seagraves fire truck.

But a total of eight offers were filed for purchase of three other vehicles the city had offered for sale—a 1961 Chevrolet four-door sedan and a 1963 Plymouth four-door sedan, both formerly used as police cruisers, and a 1968 half-ton Ford pickup truck that was utilized by the city dog warden.

Four filed offers on the Chevrolet, three entered bids on the pickup and one made an offer for the Plymouth, which was damaged in a collision.

The apparent high bid of \$376 for the Chevrolet was filed by Keith E. Bishop, 1004 Lisbon St. Other offers were: Paul Zehnder of Fairmont St., \$101.51; Mrs. Clarence Jones of 8th Ave., LaCrosse, \$28.50, and Dan Emmerling of R. D. 1, \$167.

R. E. House of Post Office Box 152, Newell, filed the apparent high bid of \$201.25 for the pickup truck. J. R. Backus of Wellsville R. D. 1 bid \$142 and Edward L. Brown, 1807 Michigan Ave., bid \$101.50.

Mrs. Jones filed the lone offer of \$35 on the Plymouth cruiser. The mayor and director, who comprise the Board of Control, took the offers under advisement. They did not indicate immediately if they will seek new offers on the old fire department pumper.

The Seagraves was replaced by an American-LaFrance model the city acquired in 1963. The cruisers were taken out of service when the city bought two 1964 Chevrolets. The dog warden was given a former police cruiser as a replacement for the pickup truck he once used.

## State Marshal Issues Fireworks Warning

Ohio Fire Marshal Fred Rice has issued an appeal to parents to prohibit their children from purchasing or using fireworks. He warned children will be burned, blinded, mutilated or disfigured unless fireworks laws of Ohio are obeyed.

Illegal vendors of fireworks are already working in Ohio and an all-out effort to curtail these activities is under way. A new law which went into effect in October will provide more enforcement of the "bootleg" sale of fireworks in Ohio, he said.

The only persons authorized to have fireworks are those who have been issued permits from the county sheriff or local fire chief for public display only, he reminded.

## Insects AND YOUR HEALTH

by Jim Fisher

**SILENT SUMMER**  
Rats, roaches, moths, termites, mosquitoes, flies and dozens of other summer insects are now poised and ready to attack where proper protection has not been provided. These insects can and often do affect your health to say nothing of property damage. Remember the old adage, "a stitch in time saves nine". The time to call your pest control operator is now before the problem gets out of control. The worse the infestation, the more difficult the control.

## FREE INSPECTION

If you have already seen signs of insects in your home, chances are pretty good that your home is already on the way to infestation. If you have not seen signs, call now while the job will be comparatively simple. Remember, an inspection of your home and property and a consultation with a pest control operator costs you nothing. We will be happy to discuss the problem with you frankly, honestly and in language that will be easy for you to understand. If you have no problem, we'll be happy to tell you so.

**CALL US TODAY**  
AT FISHER PEST CONTROL, you will find an experienced staff of pest control operators. Our phone number is FU 5-5720.

**TEN LITTLE INDIANS.** Among events concluding the Wellsville Girl Scout Day Camp Friday was an Indian dance given by this group at Hammond Park. Front row, left to right, are Cynthia Lanam, Debbie DeFalco, Janet Salajaczky, Carla Bunfill and Jeanne McPeak, and around tomtom at rear are Sue Bender, Tonyea Kerns, Donna Striker, Susan Geer and Stephanie Shively. The week's program included hikes, crafts and games for the Brownies and cooking, crafts and work on Indian role badges for the Junior Scouts. Mrs. Esther Lanam, chairman of the Brownies' group, was assisted by seven unit leaders while Miss Catherine Morris, Junior camp chairman, was aided by eight unit leaders. A total of 123 enrolled.

## Not Much Affect Seen In State

## Most Ohio Leaders Cheer Passage Of Rights Bill

COLUMBUS, Ohio (AP)—Ohio's civic and organizational leaders responded with applause for the most part, to Friday night's passage of the controversial Civil Rights Bill by the Senate.

However, many noted that the federal legislation is not likely to have much affect in Ohio which has its own fair employment practices and public accommodations laws.

An indirect result, according to John M. McElroy, assistant to the governor, will be the "greater inducement to prompt enforcement of the state law." He explained that "the federal law will prod the use of the state law" to prevent any need for federal enforcement.

A similar opinion was stated by Harold Strickland, Ohio field secretary for the NAACP. Strickland said in Ohio the federal bill will "strengthen state legislation, but in other states there will be real litigation."

Sharp reaction was heard in Cincinnati from the headquarters of the National Association for the Advancement of White

People. Its founder, William Miller, commented: "The bill went through, but let's hope this won't go through in November. We've got to do something to fight this now."

And the NAACP national secretary Walter Huff said the bill "provides more than racial equality. Many persons, like the Rev. Martin Luther King, have gone overboard and we feel that this law will leave the gate open to many injustices."

But another voice in the Queen City was that of Councilman Charles P. Taft, former mayor of Cincinnati and uncle of Ohio Congressman-at-large Robert Taft Jr.

"I think it's a great triumph for Bill McCullough (Congressman from Ohio) and Ev Dirksen (Illinois Senator) and for the Republican party in general to have played such a great part in it, though it was really bipartisan," Charles Taft said.

In Cleveland, a city in the midst of civil rights problems, Mayor Ralph Locher termed passage of the bill "a long step forward for the country as a whole."

## Oakmont Swimmer Hurts Hand Badly In Creek Mishap

An Oakmont man suffered a severe hand injury in a swimming mishap in Beaver Creek Friday night. He was admitted to City Hospital where nine other persons were treated yesterday.

Thomas Jackson, 23, of R. D. 3, Oakmont, was in "good" condition today. He caught a ring on a rock while swimming and pulled off all the finger tissue and the tip while attempting to get loose. He was admitted at 10 p. m.

Ernest Walker of New Cumberland R. D. 2 received contusions of the right foot when a lead pipe fell on him while working at the Globe Brick Co. David Chronister, 9-month-old son of Phillip Chronister of R.D. 1, suffered a possible fracture of the skull in a fall from a chair.

Mrs. Violet Cunningham of

Calcutta fractured her right foot in a fall from a step.

Mrs. Betty Justice of Lisbon R. D. 3 injured her right hip in a fall at home.

Ronald Gacesa, 4, son of Mike Gacesa of Peake St., was hit on the head with a piece of slate, suffering a laceration.

Kenneth Eddy, 3, son of Kenneth Eddy, 317 Elm St., had a splinter removed from his foot.

Ronald Smith, 5, son of Donald Smith of Woodbine Ave., was treated for a laceration of the palm of his hand suffered when he fell on a piece of glass.

Jay Taylor, 3, son of Robert Taylor, 1043 Oak St., cut his left leg on a fence.

James Davis, 7, son of Cecil Davis of New Cumberland R.D. 2, cut his right leg on a piece of glass.

## Johnson Antipoverty Plan Under Attack

ELYRIA, Ohio (AP)—The executive secretary of the Industrial Council of North Central Ohio has branded President Johnson's "war-on-poverty" as a "boondoggling" act designed to win votes.

Coleman Christian made the statement Friday at a meeting called by Lorain County Commissioners to initiate the program in the county.

Christian called the act "emotionally charged legislation which would provide jobs for federal bureaucrats."

## 2 Motorists Forfeit

LISBON—Two motorists forfeited appearance bonds Friday in Mayor Dean Stockman's court. Herbert Householder, 20, of 260 E. High St., forfeited \$15 for permitting an unlicensed juvenile to operate his motor vehicle, and Thomas J. Wickley, 30, of Lisbon R.D. 4, \$15 for failing to obey a traffic signal.

## Army Corps Of Engineers 100 Years Old

The U.S. Army Corps of Engineers of the Pittsburgh District will observe its centennial next week, beginning Sunday. It will mark a "Century of Service" in water resources development on the Ohio, Monongahela and Allegheny Rivers.

The development has provided the area with one of the finest inland navigation systems in the world, comprising 300 miles of improved waterway in the three rivers.

They carried more than 40 million tons of barged freight during 1963. An eight-dam system of flood control reservoirs has substantially reduced flood stages. Flood damages prevented by the system total well over \$300 million and far exceed the cost of construction, the corps said.

The Pittsburgh office has the largest workload in its history. Project cost of current work totals over \$300 million and includes navigation improvements, flood reservoirs, and local flood protection projects. The present construction program and projects authorized, but not yet under way, are expected to sustain this level of activity for several more years.

A highlight of the week-long observance will be the centennial banquet and dance Friday in the Penn-Sheraton Hotel. Lt. Gen. Walter King Wilson Jr., chief of Army Engineers, will be principal speaker.

## Parked Truck Struck At Downtown Corner

A parked truck and a 1957 model sedan were damaged in a mishap at a downtown intersection Friday, police reported.

The auto operated by Basil Talbert, 38, of 940 Railroad St. bumped a 1962 model truck owned by Firestone Stores, 420 E. 5th St., which was parked at Walnut and E. 5th Sts., officers said.

Talbert told officers he was turning from E. 5th to Walnut when another car headed north on Walnut St. forced him to swerve and caused his auto to strike the truck. There was damage to the left front fender and bumper of the truck and the right front fender of the auto, officers said. The mishap was timed at 10:10 a. m.

## 2 Drivers Draw Fine In Hearing At Lisbon

LISBON—Two motorists, both of R. D. 3, were fined Friday by County Judge James L. MacDonald and a third forfeited an appearance bond on State Highway Patrol charges.

Oscar R. Dille, 63, accused of failure to stop within the assured clear distance, and Ralph L. McQuiston, 44, cited for passing at the crest of a hill, were fined \$5 and costs each. Dille's car struck a State Highway Department mowing machine.

Willie J. Brown, 37, of Cleveland forfeited \$15 bond for speeding.

## Fails To Grasp Gravity Of Threat

## West Europe Irks U.S. On Red China Situation

By JOHN M. HIGHTOWER

WASHINGTON (AP)—Administration officials are said to be deeply annoyed and somewhat apprehensive at what they consider to be Western Europe's failure to grasp the gravity of the threat created by Red China's belligerent policies in Southeast Asia.

These officials foresee the possibility of more general war with Communist China as an eventual result if the Communist thrust is not stopped and if the leaders in Peking decide Western nations are soft in their reactions to aggression.

U.S. officials are trying to get across to European governments their view that if Peking believes Communist militancy pays dividends it can be expected to press its militant policies on various fronts as occasions arise.

U.S. policymakers appear to be convinced the challenge in Southeast Asia can only be met effectively by a military response such as the United States is making.

They also are trying to get the Europeans to understand that if the challenge increases the response will also be increased. The United States is firmly committed to defend Southeast Asia against a Communist takeover.

President Johnson, in a San Francisco speech Friday night, stressed this commitment and the American determination not to back down. He declared: "As long as I am President, I intend to see that America's defense can never be the object of doubt or her strength the subject of suspicion."

This strength is maintained, said Johnson, "not to intimidate others but to show others that we cannot be intimidated—not to incite our enemies but to indicate our intention to defend freedom wherever necessary."

Authorities say the United States is not pressing the European Allies for actual military support. What it wants, as one official put it, is "moral and political support" and a withholding of acts which in the U.S. view may undermine American efforts to blunt the Communist thrust.

Serious differences with European Allies, as authorities here see the problem, go back about six months to the French decision to recognize Communist China and to a subsequent announcement by President Charles de Gaulle that France favors the neutralization of all Southeast Asia.

The Johnson administration's response to the neutralization proposal has been that Communist and Western countries agreed in 1954 to neutrality for all of Southeast Asia and in 1962 they agreed again on the

specific neutralization of Laos. Secretary of State Dean Rusk has repeatedly said that the problem in Southeast Asia is not to get a new neutrality agreement with Red China and Communist North Viet Nam but to get the Reds to live up to the agreements they have already made and "leave their neighbors alone."

## Jury's Verdict Favors Walker In Libel Suit

FORT WORTH, Tex. (AP)—A Fort Worth district court jury said Friday that former Maj. Gen. Edwin A. Walker was libeled by Associated Press stories describing his activities during the 1962 segregation riot at the University of Mississippi.

The Associated Press gave immediate notice of appeal to the next highest state court, the 2nd Court of Civil Appeals in Fort Worth.

The verdict, after nine days of trial and 2 hours and 15 minutes of deliberation, said Walker should have \$500,000 for actual damages and \$300,000 for exemplary damages or punishment.

Walker had asked \$2 million in alleged damages. This was the first suit to come to trial of a series totaling more than \$20 million filed by Walker against the AP and various newspapers after the campus riot following admission of Negro student James H. Meredith. Two persons were killed in the riot.

The largest white oak in the United States stands in one of the smallest state parks. Wye Oak State Park, Md., consists of only one tree, a huge white oak 425 years old and 95 feet tall.
